Getting Started

WARNING: See the *Important Safety and Product Information* sheet in your BMW Navigation Portable Pro product box for product warnings and other important information.

MSN[®] Direct receives content such as traffic, weather, gas prices, movie times, news, stocks, local events, and Web favorites. For more information about MSN Direct, see <http://garmin.msndirect.com> or www.garmin.com.

To receive MSN Direct content, your BMW Navigation Portable Pro must be properly mounted and connected, MSN Direct must be activated, and you must be in an MSN Direct coverage area (see <http://garmin.msndirect.com/coverage>).

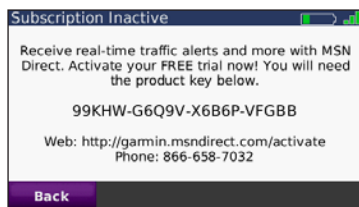

Activating MSN Direct

Your use of the MSN Direct service, as well as your use of the MSN Direct content delivered to and displayed on your device, is subject to the MSN Direct Subscription Agreement, Terms of Use, and Privacy Statement located at www.msndirect.com. By using and activating your navigation device, you hereby accept such Subscription Agreement, Terms of Use and Privacy Statement, and acknowledge that you are aware of and have had an opportunity to fully review them at the URL referenced above.

To receive MSN® Direct content, you must first activate your service (free trial service included).

To get the product key:

1. Put the unit in the mount. On the Navigation Portable Pro Menu page, touch **Tools > MSN Direct**.

2. Write down the product key.

TIP: The yellow tag card included with your product documentation also provides the product key and activation information.

To activate your subscription:

1. Call (866) 658.7032 or go to <http://garmin.msndirect.com/activate> and follow the directions.
2. Within eight days, complete the following steps:
 - Mount the BMW Navigation Portable Pro in your vehicle and turn on the unit.
 - Ensure that you are in an MSN Direct coverage area (see <http://garmin.msndirect.com/coverage>).
 - Touch **Tools > MSN Direct**. If the Subscription Inactive page appears, verify that at least one  signal bar is green.

It may take up to one hour for your subscription to be activated. After it is activated, the MSN Direct menu is accessible. On the Navigation Portable Pro Menu page, touch **Tools > MSN Direct**.

Receiving Content

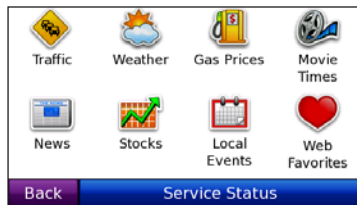

NOTE: BMW and Garmin are not responsible for the accuracy or completeness of the MSN® Direct content.

It can take several hours to receive all the content the first time you use MSN Direct, after you have traveled long distances, and after you have not used MSN Direct for several days.

MSN Direct Menu

On the Menu page, touch **Tools** > **MSN Direct**. If your subscription is inactive, go to [page 2](#).

Traffic Information

MSN Direct provides local traffic information for a large number of metropolitan areas. To learn whether traffic data is available in your area and the type of traffic data available, visit www.msndirect.com/WhatYouGet.

To view traffic in your area, on the Menu page, touch **Tools** > **MSN Direct** > **Traffic**. It takes several minutes for updated traffic information to download after you turn on the Navigation Portable Pro.

Traffic on Your Road

When you are not navigating a route and a traffic delay is on your road, the Map page displays a traffic icon, such as  (see Traffic Icons on [page 5](#)). Touch the icon to view information about the traffic delays on the road ahead.

Traffic on Your Route

When calculating your route, the Navigation Portable Pro examines the current traffic delays and automatically optimizes the route for the shortest time. You might still be routed through traffic if it is the best route available or if no alternative roads exist. If a severe traffic delay occurs on your route while you are navigating, the Navigation Portable Pro automatically recalculates the route to avoid the severe delay.

The Map page displays  when a traffic delay is on your route. The number in the icon represents the time this delay added to your route. The delay time has been automatically calculated into the arrival time shown on the map.

To avoid traffic on your route:

1. On the Map page, touch .
2. Touch the text bar at the top of the Map page for more information. If there is more than one delay, touch **Details**.
3. Touch **Avoid** to avoid this delay.

Traffic Flow Color Code

The colored roads on the map indicate traffic flow.

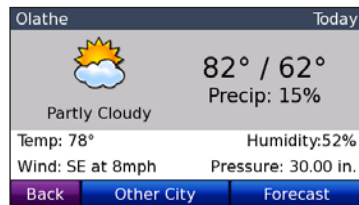

-  Green = Low severity; traffic is flowing normally.
-  Yellow = Medium severity; traffic is a bit congested.
-  Red = High severity; traffic is heavily congested or stopped.

2. Touch a date.

3. Touch an event category and a subcategory, if necessary.
4. Touch an event to view details.
5. Touch **Go!** to navigate to this event.

Web Favorites

The Web Favorites feature allows you to find a location using your computer and send that location to your Navigation Portable Pro.

1. Go to www.msndirect.com/webfavorites.
2. Click **Sign in** if you have a Windows Live™ ID, or create one if you do not.

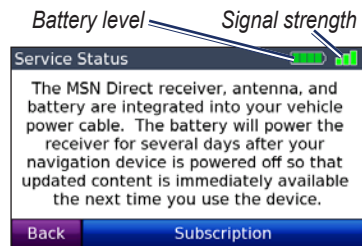

NOTE: To associate your unit with your Windows Live ID and receive Web Favorites, go to www.msndirect.com/Account/MyDevices.aspx.

3. Find a location.
4. Click **Send to GPS**. The location is sent wirelessly to your Navigation Portable Pro. In about 15 minutes, the location appears on your unit.
5. On the Navigation Portable Pro Menu page, touch **Tools > MSN® Direct > Web Favorites**.
6. Select the location, and touch **Go!** to navigate to the location.

Service Status

The Navigation Portable Pro system includes an MSN Direct Receiver with a rechargeable battery that allows data to be downloaded and retained when your vehicle is not running. The Service Status page displays the battery level and signal strength of the MSN Direct Receiver.

Renewing Your Service

1. On the Menu page, touch **Tools > MSN Direct > Service Status**.
2. Touch **Subscription** for instructions on how to renew your MSN Direct service (free trial service included).

You can also renew your subscription by going to www.msndirect.com/activate.
