

Garmin Mobile[®] XT

navigation software

*Provides GPS navigation on your smartphone**

**Phone not included*

Step 1: Install Garmin Mobile® XT on Your Mobile Phone

1. Insert the data card into your phone using one of the provided adapters if needed.
2. When prompted to install the Garmin Mobile XT navigation software, select **Yes**. The navigation software is automatically installed on your phone.
3. Answer the questions to configure Garmin Mobile XT.

If the software installation does not start automatically, follow the instructions that match your type of phone to install Garmin Mobile XT:

- **Windows Mobile® Smartphone users:** use the file explorer for the phone, select the file named “Garmin Mobile XT” on the card.
- **Palm OS® Smartphone users:** open the application named “XT Install” on the card.
- **Symbian™ Smartphone users:** use the phone’s file manager to select the file named “GarminMobileXT.SIS” on the card.

Step 2: Acquire GPS Signals

1. Open  Garmin Mobile XT, found in the programs folder on your phone.
2. Drive your vehicle to an open area, out of parking garages, and away from tall buildings.

Acquiring satellite signals may take a few minutes. The  bars in the upper-left corner of the Garmin Mobile XT window indicate satellite strength. When at least one bar is green, you can find your destination.

Customizing Phone Settings

Set your phone auto-off and other power-management settings to be suitable for your navigation experience. Refer to your phone documentation for instructions.

Navigating with Garmin Mobile XT

For complete information on using Garmin Mobile XT and troubleshooting tips, select  **Help** on the main Garmin Mobile XT page. Also refer to the *Garmin Mobile XT Owner’s Manual* at www.garmin.com/mobilext.

Where to?: find addresses, Points of Interest (POI) (restaurants, hotels, attractions), intersections, and a variety of other locations on your detailed map.

View map: view a map of your current location. The map moves as you move to constantly show your current location.

Garmin Online: access Garmin Online features

Tools: use tools that are useful for navigation, such as Route Details, Location Messages, and Settings

Exit: close Garmin Mobile XT.

Location Messages: you have received a new location message.

Message: you have received a new message from the Garmin Online™ server.

Help: learn more about Garmin Mobile XT.

NOTE: You may have to select **Menu** to see **Garmin Online, Tools and Help**. This is indicated in this manual as (**Menu >**).

Finding a Destination

The **Where to?** menu provides several categories and subcategories to help you find destinations. You can enter addresses, look up locations you recently found, and view locations you have saved.

1. Select **Where to? > Points of Interest**.
2. Select a category. To find a location by name, select **Spell Name**, enter all or part of the name, and then select the location you want.
3. Select a subcategory or select **All Categories**. A list of locations near your current location appears.
4. Select a location to open an information page.
5. Select **Go!** to create a route to this location.

Information and Options Page

When you have selected a location to navigate to, select **(Menu >) Options** to see more choices.

- **Save to My Locations:** saves the location to My Locations, a collection of your favorite locations.
- **Save to Contacts:** saves the location to your phone's contact list.
- **Add as via to current route:** adds the location to your current route.
- **Send Location:** sends your location as a Garmin location message.
- **Weather:** shows the current weather condition and a five-day forecast for that location.
- **Dial** (or a phone icon on the information page): calls a location (if available).
- **Map:** displays the location on a map.

Following the Route

After you find a location, select **Go!** to create a route to it. The map automatically opens with your route indicated by a magenta line. The  position icon shows your position on the map.

Directions appear at the top of the screen. Your current speed and estimated arrival time appear at the bottom of the screen. If you are not navigating, your current speed and direction of travel appear at the bottom of the screen.

If you leave the map and want to return, select **View Map** on the main Garmin Mobile XT page. Select **Stop** to stop the active route.

NOTE: By default, traffic is avoided when routes are generated. To change this and other routing settings, select **(Menu >) Tools > Settings > Routing > Avoidance Setup**.

Understanding Location Messages

NOTE: The location messaging service is not available on all mobile phones.

The location message service allows you to send your current location information to other people using SMS text messaging. The normal messaging fees for the phone apply.

1. From the main Garmin Mobile XT page, select **(Menu >) Tools > Location Messages**.
2. Select **Contacts**, and then select a contact.
3. Select **Select**.
4. To send the message, select **Send Location Message**.
5. To attach a map, select **(Menu >) Map**. (The MMS service required for this feature may not be available on all phones.)
6. Select **Send** to send the message.

Garmin Mobile XT users who receive the location message can save the location and route to it.

Using Garmin Online

Use Garmin Online to download location-relevant information such as fuel prices (USA only), current weather data, flight status information and traffic data. You can also download safety camera information (Europe only). Not all services are available in all areas.

From the main Garmin Mobile XT page, select **(Menu >) Garmin Online** or the  Garmin Online icon. Select an item to view, such as traffic, weather or fuel prices.

Your phone must have a data connection and data plan to access Garmin Online. Your Garmin Online account is activated automatically on most phones. Most Garmin Online data is free, but the regular Internet and data-transfer charges for your phone apply.

By default, each time you start navigating a route, Garmin Mobile XT accesses Garmin Online to check for traffic incidents on your route. If there is a traffic incident, Garmin Mobile XT avoids the incident when generating the route.

Finding a POI with Google Local Search

1. Select **(Menu >) Garmin Online > Google Local Search** or **Where To? > Google Local Search**.
2. Spell the name or category of your destination or select the category of the destination you are looking for.
3. Select the location to open the detail information page.
4. Select **Go!** to create a route to this location.

Finding a POI Using Photo Navigation

Panoramio™ provides pictures that include location information. To view photos, select **(Menu >) Garmin Online > Panoramio Photos** or **Where To? > Panoramio Photos**.

More Information/Contact Garmin

Contact Garmin Product Support if you have any questions while using your Garmin Mobile XT. In the USA, go to www.garmin.com/support, or contact Garmin USA by phone at (913) 397-8200 or (800) 800-1020.

In the UK, contact Garmin (Europe) Ltd. by phone at 0808 2380000.

In Europe, go to www.garmin.com/support and click **Contact Support** for in-country support information, or contact Garmin (Europe) Ltd. by phone at +44 (0) 870.8501241.

Important Information

MAP DATA INFORMATION: One of the goals of Garmin is to provide customers with the most complete and accurate cartography that is available to us at a reasonable cost. We use a combination of governmental and private data sources, which we identify in product literature and copyright messages displayed to the consumer.

Virtually all data sources contain some inaccurate or incomplete data. In some countries, complete and accurate map information is either not available or is prohibitively expensive.

WARNING: This product, its packaging, and its components contain chemicals known to the State of California to cause cancer, birth defects, or reproductive harm. This Notice is provided in accordance with California's Proposition 65. See www.garmin.com/prop65 for more information.

Warnings

Failure to avoid the following potentially hazardous situations could result in an accident or collision resulting in death or serious injury.

- When installing your mobile phone in a vehicle, place the unit securely so it does not obstruct the driver's view of the road or interfere with vehicle operating controls, such as the steering wheel, foot pedals, or transmission levers. Do not place in front of or above any airbag. (See diagram.)
- When navigating, carefully compare information displayed on your mobile phone to all available navigation sources, including information from street signs, visual sightings, and maps. For safety, always resolve any discrepancies or questions before continuing navigation and defer to posted road signs.
- Always operate the vehicle in a safe manner. **Do not become distracted by your mobile phone while driving, and always be fully aware of all driving conditions.** Minimize the amount of time spent viewing your mobile phone's screen while driving and use voice prompts when possible. Do not input destinations, change settings, or access any functions requiring prolonged use of your mobile phone's controls while driving. Pull over in a safe and legal manner before attempting such operations.
- The navigation software is designed to provide route suggestions. It is not designed to replace the need for driver attentiveness regarding road closures or road conditions, traffic congestion, weather conditions, or other factors that may affect safety while driving.
