USING MSN[®] DIRECT

The MSN Direct Receiver receives MSN Direct content such as traffic, weather, gas prices, and movie times. For more information about MSN Direct, see <http://garmin.msndirect.com> or www.garmin.com.

The MSN Direct Receiver replaces the vehicle power cable/traffic receiver that came with your Garmin GPS navigator.

WARNING: See the *Important Safety and Product Information* sheet in your Garmin GPS navigator product box for product warnings and other important information. Garmin's standard Limited Warranty applies to this product.

To receive MSN Direct content:

- Your Garmin GPS navigator must be connected to the MSN Direct Receiver.
- You must be in an MSN Direct coverage area (see <http://garmin.msndirect.com/coverage>).
- Your MSN Direct Receiver must be activated.

Activating Your MSN Direct Receiver

To receive MSN Direct content, you must first activate your service (1-year free service included).

NOTE: When you first activate your MSN Direct Receiver, you must specify a primary location and a current region. The primary location is the area you will use the device most often. The current region refers to your current location.
