

Navus™: Jeep® Compass, Patriot

- Disconnect and isolate the negative battery cable.
- Clean dash with isopropyl alcohol.
- Follow the instructions inside to mount the Navus.
- Positioning the template correctly is very important!
- When attaching baseplate to dash, press firmly to activate adhesive.
- Route cable behind separator in dash to avoid pinching cable.
- Apply mercury warning label to B-pillar, as shown.

- Débranchez et isolez le câble négatif de la batterie.
- Nettoyez le tableau de bord avec de l'alcool isopropylique.
- Suivez les directives incluses pour installer le Navus.
- Il est très important de placer le gabarit correctement!
- Pour fixer le socle sur le tableau de bord, appuyez fermement afin d'activer l'adhésif.
- Acheminez le câble derrière le séparateur afin de ne pas pincer le câble.
- Apposez l'étiquette d'avertissement de mercure sur le montant B, comme illustré.
