Installation: <http://www.garmin.com/uk/extras-points-of-interest/#how-to-install>

Alternatively, you can use this more detailed text:

- Right click the link and Click “save file as...”
- Connect device via USB cable with your computer
- Download directly to the folder named \POI on the internal storage of your Garmin device or copy the file later to this location Users of older devices nüvi 205 & 550 need to create a \POI folder manually
- Disconnect Garmin device from Computer and restart
- The free POIs can be found in the “Where to” menu after clicking on “Categories” and then scrolling down to “Other categories” Older devices list the package under “Extras” in the “Where to” menu.

Supported languages:

English, French, German, Spanish, Italian
