

GARMIN

ENVISION THE FUTURE

Introducing the Garmin Drive™ sat nav series

What drives you?

Whether your weekly commute consists of trips to the supermarket or picking up clients from the airport, Garmin Drive™ has a sat nav specific to your needs. To encourage safer driving and increase situational awareness, the entire Garmin Drive™ product lineup features driver alerts.

AWARENESS

It's not just about getting from point A to point B with a sat nav. It's about having a smoother commute with driver awareness features that increase situational awareness and encourage safer driving.

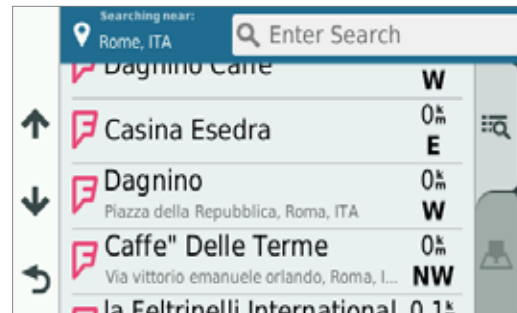

Garmin Drive™

Garmin Drive™ includes all of the great driver awareness alerts like upcoming sharp curves, fatigue warning², speed changes, railroad crossings and more. It's simple to use and dedicated to getting you to your destination with ease. Thanks to Foursquare®, it's preloaded with millions of popular places. The Up Ahead feature lets you easily see places up ahead and milestones along your route, without leaving the map view.

Driver Alerts

Driver alerts warns ahead of dangerous curves, wrong-ways and more.

Foursquare

Preloaded Foursquare data has millions of popular places.

Garmin Real Directions™

Spoken Garmin Real Directions guide you like a friend, using recognizable landmarks, buildings and traffic lights.

FOURSQUARE

DIRECT ACCESS

TRAFFIC¹

¹ Available on LMT versions. Lifetime Traffic Terms & Conditions

² The fatigue warning activates after longer periods of consecutive driving without any long stops along the route. Foursquare® and the Foursquare® logos are registered trademarks of Foursquare Labs, Inc.

SMART CONNECTIONS

Staying in the loop shouldn't mean losing focus of the road ahead. We get it. So we brought smart notifications¹ to your sat navs display.

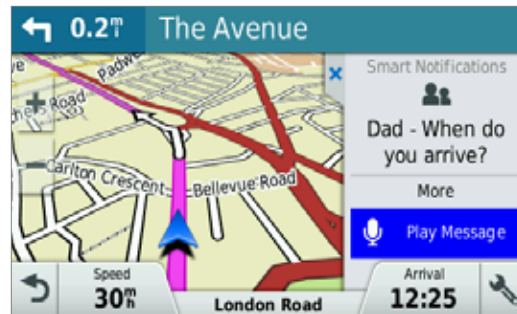

Garmin DriveSmart™

Stay focused on the drive ahead while staying connected with customisable smart notifications that appear on your navigation display. Voice-activated navigation (on selected models) and Bluetooth® hands-free calling allows you to keep your hands on the wheel when entering a destination or making a phone call. Includes all the driver awareness features, with lifetime traffic³ on select Garmin DriveSmart™ models. Bird's Eye and PhotoReal Junction View help navigate interchanges with ease.

Live Traffic

With improved traffic coverage in cities, rural areas as well as motorways and 1 minute refresh rate: Rely on Garmin Live Traffic for a stress-free drive, everywhere you need⁴.

Smart Notifications

Customisable smartphone notifications let you display calls, texts and other app alerts on your navigation screen.

LIVE TRAFFIC³

¹ To receive Smart Notifications on your navigator, you must download the free Smartphone Link app. Requires Bluetooth®-enabled smartphone (sold separately)

² User's data plan charges, if any, will apply. Contact your mobile service provider for more information about your service plan's data and roaming rates. Subscription may be required.

³ [Lifetime Traffic Terms & Conditions](#)

⁴ Improved coverage beyond TMC locations compared to standard traffic service thanks to improved Location Referencing technology and TPEG. TPEG is the next generation traffic protocol, the new traffic standard and has the highest specifications for the transmission of advanced worldwide traffic information.

CAMERA-ASSISTED

Offering the protection of “an eyewitness that never blinks,” Garmin DriveAssist™ comes with a built-in dash cam that continually records your drive and provides advanced driver alerts to encourage safer driving.

Garmin DriveAssist™

The built-in dash cam³ continually records your drive and automatically saves video footage on impact, while GPS records exactly where and when events occurred. Includes all the driver alerts with additional camera-assisted alerts like Forward Collision Warning and Lane Departure Warning. Lifetime traffic² helps you avoid traffic jams and learn time-saving detours.

Garmin Real Vision™

When approaching select destinations, your navigation display will switch to camera view and a bright arrow will point to where you need to go.

Forward Collision Warning¹

Alerts if you drive too close to the car ahead.

Lane Departure Warning¹

Alerts you if you drift off the road or into oncoming traffic.

LUXURY

Luxury shouldn't stop at premium features and that's why we've designed a more sleek and stylish sat nav to look as good as your commute will feel.

Garmin DriveLuxe™

With its elegant styling and sleek metal body, DriveLuxe™ reflects a refined aesthetic that suits the interior of any vehicle. A powered magnetic mount securely holds and charges your DriveLuxe as you drive. Dual-orientation capabilities allow you to use either horizontally or vertically. Stay focused on your drive ahead while staying connected with customisable smart notifications¹ that appear on your navigation display

DRIVER ALERTS

To encourage safer driving and increase situational awareness, the entire Garmin Drive™ product lineup features driver alerts.

Fatigue warning

Suggests break times and potential rest areas ahead after hours of driving.

Railroad & Animal crossings

Provides alerts when approaching railroad crossings or animal crossings.

Wrong way on a one way

Provides alerts when driving the wrong way on a one way.

Sharp curves

Notifies you when approaching sharp curves ahead.

Red light and safety cameras

Provides alerts when approaching red lights or safety cameras.

Speed changes

Alerts for upcoming changes in speed.

Approaching traffic jam

Alerts when approaching stopped or slow traffic on select models.

Live Traffic

Avoid traffic and learn time-saving detours on select models. No subscriptions and no fees.

School alerts

Warnings for nearby schools and school zones.

ADD A CAMERA TO YOUR DRIVE

When it comes to adding camera technology to your drive, Garmin has you covered, backwards and forwards and everything in between.

BC™ 30 Wireless Backup Camera¹

Easily see vehicles, pedestrians, and other obstacles when you move in reverse.

Garmin Dash Cam™¹

Drive with a reliable eyewitness when you are on the road.

Garmin babyCam™¹

When traveling with a child, babyCam™ works as an in-vehicle baby monitor.

¹ Lifetime Maps entitle you to receive map updates when and as such updates are made available by Garmin during the useful life of one compatible Garmin product or as long as Garmin receives map data from a third party supplier, whichever is shorter. For the meaning of a product's "useful life" and for other important terms and conditions, please see www.garmin.com/en-US/legal/ImDisclaimer.

² Compatible smartphone required. Sold separately.

³ Lifetime traffic extends for the useful life of your Garmin traffic receiver or as long as Garmin receives traffic data from its traffic supplier, whichever is shorter. A traffic receiver's "useful life" means the period during which the receiver (a) has the required technical capabilities to utilize current traffic data service and (b) is capable of operating as intended without major repairs. Traffic content not available in all areas.

⁴ In some jurisdictions it could be considered an invasion of privacy rights to take or publicly display photographs or videos of people or their vehicles using this product. It is your responsibility to know and comply with applicable laws and rights to privacy in your jurisdiction.

⁵ Certain conditions may impair the warning function. Visit Garmin.com/warnings for details.
