SONAR TECHNOLOGY

LIVESCOPE PLUS™

The best of the best just got better with the LiveScope Plus System. Offering improved resolution, reduced noise, clearer images and better target separation, it features built-in stabilization to keep the sonar image steady on your compatible chartplotter, even in rough conditions. Now it's easier than ever to see structure, bait and fish swimming around your boat in real time.

Part no: 010-02706-00 Panoptix LiveScope Plus System w/ LVS34 and GLS10

THREE MODES IN ONE TRANSDUCER

LIVESCOPE™ PLUS DOWN MODE

View live, easy-to-interpret scanning sonar images of structure and swimming fish in incredible detail below your boat.

LIVESCOPE™ PLUS FORWARD MODE

Scout ahead of your boat to see what's happening in real time by scanning sonar images of structure and fish up to 200' away.

LIVESCOPE™ PLUS PERSPECTIVE MODE

An ideal sonar mode for shallow water, this mode lets you see under the water with a view from your perspective above the water.

LIVESCOPE PLUS SCANNING SONAR SYSTEM

010-02706-00 Panoptix LiveScope Plus System w/ LVS34 and GLS10

Includes a compact GLS 10 sonar black box with LVS34 transducer and simple plug-and-play Garmin Marine Network connector to install easily and integrate seamlessly with your compatible Garmin chartplotter¹. With support for Forward, Down and Perspective mode views, now it's easier than ever to see the structure, bait and fish around your boat in real time. Available with Perspective Mode Mount, trolling motor barrel mount and shaft mount options.

LIVESCOPE™ PLUS LVS34 TRANSDUCER

010-02706-10 LiveScope Plus LVS34 Transducer only

Easily upgrade your current LiveScope system black box (GLS 10 sonar module) with a new LVS34 transducer. Don't miss a thing with supported forward, down and perspective mode views and necessary mount.

¹Compatible with GPSMAP® 8400/GPSMAP 8600 chartplotter series, GPSMAP® x2 Plus, GPSMAP® x3, ECHOMAP™ Ultra 2 combo, and ECHOMAP UHD2 SV Series

LIVESCOPE™ XR SYSTEM

You didn't think it could get better, but it did with the extended range of the LiveScope™ XR System. It's the latest in LiveScope technology, now for coastal and open-water fishing. The XR transducer offers live scanning sonar up to 350' in saltwater and up to 500' in freshwater in three modes. Adjust the transducer to fit where you fish; use LiveScope™ Forward mode to see around your boat, LiveScope™ Down mode to see directly below your boat and Perspective mode for an overhead sonar view that's perfect for scouting open water or shorelines.

Part no: 010-02719-00 Panoptix LiveScope XR System w/LVS62XR and GLS10

LOOK DEEPER

Explore the deep with extended-range, live-scanning sonar depths up to 500' in Freshwater and 350' in Saltwater.

TAKE A CLOSE VIEW

Find fish circling close to your boat. Compress range gives you clear views of waters around your hull.

IMAGE STABILIZATION

A built-in stabilization system keeps the sonar image steady on your compatible chartplotter, even in rough conditions.

VIVID COLOR PALETTES

Choose from seven vivid color options to see fish and structure with maximum contrast and clarity.

LIVESCOPE™ XR LVS62 TRANSDUCER

010-02719-10

Want to optimize your existing LiveScope sonar's GLS™ 10 black box for coastal and open-water fishing? Just add the LVS62 transducer to your setup. Get all the detail and clarity your system is built to deliver.

LIVESCOPE™ XR SONAR SYSTEM

010-02719-00

Includes a compact GLS™ 10 sonar black box with LVS62 transducer and offers easy installation with a plug-and-play Garmin Marine Network connector for seamless integration with your compatible Garmin chartplotter¹. Now it's easier than ever to see the structure, bait and fish around your boat — in real time — with support for forward, down and perspective mode views.

LIVESCOPE™ DOWN

LIVESCOPE™ FORWARD

LIVESCOPE™ PERSPECTIVE MODE

PANOPTIX™ ALL-SEEING SONAR

Panoptix sonar is opening up a new world for serious fishermen. It makes it possible to see fish and bait swimming, in real time, around or under your boat – even when the boat is not moving.

PANOPTIX FORWARD

Includes 3 forward views: LiveVü Forward, RealVü 3D Forward and FrontVü¹.

LIVEVÜ FORWARD

Provides a live sonar look at fish swimming and moving toward or away from the boat. Cast right at fish. See your lure. See fish react to your lure. See and feel the strike.

REALVÜ 3D FORWARD

Scans the area in front of your boat, creating a forward-looking 3D view of the bottom, structure and fish.

FRONTVÜ

To help give you time to avoid collisions with submerged obstacles, FrontVü shows underwater obstructions within a 300-foot range as you approach them in real time².

PANOPTIX DOWN

Includes 3 downward views: LiveVü Down, RealVü 3D Historical, and RealVü 3D Down.

LIVEVÜ DOWN

Shows real-time moving sonar images of small baitfish and large target fish swimming below your boat and pinpoints their distance left or right and their depths.

REALVÜ 3D HISTORICAL

Scrolls through sonar data as the boat moves to show the history of the entire water column from the bottom to the surface and all of the fish in between.

REALVÜ 3D DOWN

Scans below the boat – front to back and side to side – to construct a full 3D view of the area under the boat, letting you see contour changes, fish and structure, even while stationary.

¹The forward-facing transom mount should be mounted in a location that is out of the water as speeds over 17 knots. If located below the water line, cruising speeds over 21 Kn should be avoided.

²The ability to effectively avoid running aground with FrontVü sonar decreases as speed rises above 8 knots.

PANOPTIX™ ALL-SEEING SONAR

PANOPTIX FRONTVÜ SONAR

Part no: PS51-TH: 010-01753-00

Multibeam thru-hull transducer with premium FrontVü forward-looking sonar helps you avoid running aground¹ by displaying the bottom ahead of your boat in real time on your chartplotter. It also includes LiveVü Forward sonar to give you the unique ability to see fish — even divers — swimming in real time under and ahead of your boat with a 300-foot forward range.

² The forward-facing transom mount should be mounted in a location that is out of the water as speeds over 17 knots. If located below the waterline, cruising speeds over 21 knots should be avoided

PANOPTIX™ PS70 THRU-HULL TRANSDUCER

See fish live. Catch fish deep. The Panoptix™ PS70 thru-hull transducer is powered by Garmin RapidReturn™ sonar, which gives you live sonar views up to 1,000' below the surface with 1-kW power output for strong sonar penetration through the water. As the fastest live sonar at 1,000', images update at a rate that's 6-8 times faster than other competitive systems. Locate bait and fish quickly with a wide 120-degree by 8-degree sonar beam that covers huge areas of water.

Part no: 010-02768-00 PS70-TH with fairing block; 010-02768-10 PS70-TH transducer only

FOUR EASY-TO-UNDERSTAND SONAR MODES

Select the view that works best for your circumstance.

LIVEÜ™ DOWN

See real-time live sonar images up to 1,000'. With RapidReturn, anglers can see small baitfish and target game fish in real time.

TRADITIONAL SONAR

View crisp, clear fish arches with excellent separation of targets under the boat.

TRIPLE BEAM SONAR

Get a three-way traditional sonar split that gives sonar returns from the port and starboard directions, as well as targets directly under the boat, in an easy-to-understand traditional sonar view. Adjust the beam angles to fine-tune your 3 columns of sonar data.

REALÜ™ 3D

Historical scanning technology helps find fish and build a map of the ocean floor while your boat is moving. It shows the entire water column you have passed over in 3D, from the bottom to the surface and all fish in between.

QUICKDRAW CONTOURS

Survey the ocean floor in great detail. New QuickDraw Contours improvements allow you to survey wide areas at depths up to 1,000' — and instantly create personalized fishing maps on-screen with 1' contours as you fish.

SCANNING SONAR SYSTEM

ULTRA HIGH-DEFINITION

The Ultra High-Definition Scanning Sonar redefines scanning sonar. See everything below and off to the sides of your boat in amazingly sharp, crisp detail. The UHD transducers provides image details so clear and precise, you can actually see fish hanging just off branches of submerged trees, brush and rocks. You can see size differences between bigger and smaller fish and even see individual fish swimming in bait balls.

Share Ultra High- Definition scanning sonar images seamlessly across multiple networked chartplotters¹. You can also add optional Panoptix all-seeing sonar to your networked sonars.

SEE EVERYTHING

Clarity and detail are redefined with the Ultra High-Definition scanning sonar system. It delivers greater resolution by putting more power on targets with a higher frequency range than conventional marine sonar technologies.

VIVID COLOR PALETTE

See fish and structure in colorful detail with vivid color palettes. See fish and structure in colorful detail with scanning sonar.

UHD CLEARVÜ

ClearVü with CHIRP technology is high-frequency sonar that delivers an amazingly clear picture of what's under your boat. ClearVü produces an ultra-clear image for a more detailed representation of objects, structure and fish.

UHD SIDEVÜ

SideVü with CHIRP technology provides a highly detailed, high-resolution image of structure and fish off to either side of your boat. It's excellent for scouting, finding fish and the right types of structures for successful fishing.

TRADITIONAL CHIRP SONAR

Garmin CHIRP traditional sonar sends a continuous sweep of frequencies ranging from low to high. This sweep of frequencies provides a wide range of data to create an amazingly clear, high resolution image.

CARTOGRAPHY AND APPS

NAVIONICS

#1

IN MAPPING

THE BEST OF GARMIN WITH THE BEST OF NAVIONICS®

Whether you're adventuring on the high seas, cruising an intercoastal waterway, fishing on your new favorite freshwater lake, or piloting a commercial workboat, your chartplotter deserves the best, most up-to-date cartography and navigation data available. That's the advantage you get with the detail-rich Garmin and Navionics content in our full line of marine mapping solutions. With selectable chart layers, overlays and more, our products help mariners all over the world guide their boats in and out of port with confidence. Map coverage areas are aligned across standard and premium cartography for all Garmin and Navionics branded products — with combined coastal and lake content, making it simple to access the map areas you want. See all the best places that water can take you. And plot your course with the world's No. 1 choice in marine mapping.

¹Based on 2024 reported sales

See current Garmin/Navionics cartography catalog for coverage areas and pricing.

GARMIN NAVIONICS+ CHARTS

Worldwide coverage available

INTEGRATED MAPPING FOR GARMIN CHARTPLOTTERS

Navigate with greater peace of mind and increased awareness on the water. Garmin Navionics+ marine charts — with integrated Garmin and Navionics content — brings a vibrant color palette and popular Navionics-style chart formatting to your chartplotter¹. For offshore or inland waters, this all-in-one solution offers detail-rich mapping of coastal features, lakes, rivers and more — with shaded depth contours and access to daily updates via the ActiveCaptain® app. Advanced Auto Guidance+ technology² offers a suggested dock-to-dock path to your destination. And multiple shading options aid in shallow water navigation and make it easy to select depth ranges for the best fishing spots.

ADVANCED CHART DETAIL

Integrated Garmin and Navionics content, with an updated color palette and Navionics style appearance, offers exceptional coverage, clarity and detail on your chartplotter.

DETAILED CONTOURS

Up to 1' contours provide a more accurate depiction of bottom structure, so you can catch more fish and navigate with confidence.

AUTO GUIDANCE+

Built-in Auto Guidance+ technology¹ uses your desired depth and overhead clearance, along with chart data and frequently traveled routes, to calculate a suggested path to follow from dock to dock. This results in smoother, more detailed routes, and it now calculates even faster.

DEPTH RANGE SHADING

Select high-resolution depth range shading for up to 10 depth ranges to view your target depth at a glance.

SHALLOW WATER SHADING

Shallow water shading for a user-defined depth gives a clearer picture of shallow waters to avoid when navigating.

NIGHT MODE

Get a better view of important navigation features at night with improved contrast and a muted color palette that reduces eye strain after dark.

SEABED AREAS

With seabed areas, the colours displayed on the screen identify the general density and nature of the seafloor. This feature helps the boater clearly identify the type of seabed and make informed decisions regarding their navigation.

GARMIN NAVIONICS VISION+™ CHARTS

Worldwide coverage available

PREMIUM MAPPING FOR GARMIN CHARTPLOTTERS

Our premium cartography solution for Garmin devices adds even more graphical content and visual dimension to the standard Garmin Navionics+ feature set. Covering offshore and inland waters, this all-in-one mapping package lets you navigate seamlessly with such additional onscreen aids as high-resolution relief shading, 3-D perspective views, and overhead visual reference from aerial photography and satellite imagery. Enhancing your situational awareness, these extra features help you navigate unfamiliar waters, marinas, shorelines, ports and more with confidence.

RELIEF SHADING

Highly detailed shading that combines color and shadow to provide an easy-to-interpret, clearer view of bottom structure than contour lines alone.

HIGH-RESOLUTION SATELLITE IMAGERY

High-resolution satellite imagery overlaid with navigational charts gives you a realistic view of your surroundings — ideal for entering unfamiliar harbors or ports.

AERIAL PHOTOS

Aerial and surface photography of ports, bridges, docks, navigational landmarks and more provides a better sense of your surroundings above the waterline.

3D VIEWS

MarinerEye and FishEye views provide 3-D representations of the surrounding area above and below the waterline.

NAVIONICS® + CHARTS

NAVIONICS®
A Garmin Brand

Worldwide coverage available

INTEGRATED CHARTS AND MAPS FOR A WIDE RANGE OF THIRD-PARTY CHARTPLOTTERS

It's all about knowing your way on the water — with cartography you can trust. That's why the boaters who trust and rely on the Navionics brand have made it the world's No. 1 marine mapping provider¹. Seamlessly combining offshore and inland content, this all-in-one solution offers clear, reliable cartography for the widest range of chartplotter brands. Navionics+ and Platinum+ cartography is available on microSD™ cards for easy installation on your compatible marine device. The same detailed marine and lake charts are also available with the Navionics Boating app on your compatible Apple® or Android™ mobile device. Simply download the app and purchase your charts of choice to access top-of-the-line maps right from your phone.

SAVE WITH MARINE CHART SUBSCRIPTIONS

An included one-year subscription with your chart purchase provides access to daily updates, advanced features and so much more. At the end of your yearly subscription period, you can renew for additional one-year periods — at a price that's typically 50% less than the cost of a new GPS card². Activate your subscription with the Navionics chart installer software or by using the Plotter Sync feature of the Navionics Boating app to activate and update charts wirelessly³.

NAVIONICS+

For offshore or inland waters, this all-in-one solution offers detail-rich integrated mapping, up to 1' (0.5 meter) HD contours, advanced features² such as dock-to-dock route guidance technology² and access to daily updates via the Navionics Chart Installer software.

NAUTICAL CHART

Essential cartographic reference detail for cruising, sailing and fishing: port plans, safety depth contours, marine services, tides and currents, and navigation aids.

SONARCHART™ HD BATHYMETRY

For improved fishing and navigation, SonarChart™ HD bathymetry maps display up to 1' (0.5 meter) contours for a more detailed depiction of bottom structure.

COMMUNITY EDITS

Download the Community Edits content layer to any Navionics card and view this valuable local information, contributed by Navionics Boating app users, on your compatible chartplotter.

DOCK-TO-DOCK ROUTE GUIDANCE

Navionics advanced route guidance technology³ uses your boat settings, along with chart data and frequently traveled routes, to calculate a suggested path to follow from dock to dock.

SONARCHART LIVE MAPPING FEATURE

Create your own maps on the fly. Watch new up to 1' (0.5 meter) HD bathymetry maps develop in real time as your boat moves along the water.

ADVANCED MAP OPTIONS

Change the way you view Navionics charts and focus on the details that matter most to you. Highlight shallow areas, adjust contour density or select a fishing range.

PLOTTER SYNC

Transfer routes and markers, update charts and more between your plotter card and mobile app — wirelessly. You can even activate or renew your card's subscription and upload sonar logs.

NOTE: Navionics+ and Platinum+ cards are not compatible with Garmin chartplotters • ¹Based on 2021 sales • ²Compatibility with Navionics advanced features varies depending on the chartplotter model • ³Route guidance is for planning purposes only and does not replace safe navigation operations • Apple is a trademark of Apple Inc., registered in the U.S. and other countries. • Android is a trademark of Google LLC.

PLATINUM+ CHARTS

NAVIONICS[®]
A Garmin Brand

PLATINUM+ OVERLAYS AND FEATURES

Designed with the most demanding boaters and serious anglers in mind, all the marine content of Navionics+ is enhanced with additional viewing options that take your boating experience to the next level.

PLATINUM+

INTEGRATED COASTAL AND INLAND LAKES COVERAGE

A comprehensive, all-in-one map solution, Platinum+ cartography combines premium marine content on oceans, major rivers and seas with freshwater inland mapping for more than 44,000 lakes worldwide.

RELIEF SHADING

The relief shading feature brings bottom detail to life, from shallow flats to deep offshore canyons, in a vivid, colorful representation that helps boaters gain a better understanding of bottom topography.

SATELLITE IMAGERY WITH SONARCHART™ SHADING OVERLAY

Created from SonarChart 1' contour data, varying shades of blue reveal changes in depth such as channels and drop-offs to improve situational awareness and give clear, visual cues to fish-holding structure.

AERIAL PHOTOS

Aerial and surface photography of ports, marinas, bridges, docks, boat ramps, dams and navigational landmarks offers superior situational awareness.

3D VIEW

Unique 3D views provide additional perspective, both above and below the water.

NAVIONICS® BOATING APP

NAVIONICS®
A Garmin Brand

For cruising, fishing, sailing, diving and all your other activities on the water, the Navionics Boating app brings detailed offshore marine and inland lake charts to your compatible mobile device so they're on hand wherever you go. As a companion to the chartplotter or on its own, the app delivers detailed chart content, relief shading overlays, night mode for easier map viewing after dark and more in a convenient and easy-to-use format.

In addition to all the great chart content, your one-year renewable subscription lets you access daily updates and powerful advanced features before, during and after your trip.

SPECIAL NAVIONICS BOATING APP FEATURES

Relief shading overlays use color and shadow to provide boat owners with a better understanding of bottom topography for improved fishing and diving

Auto Guidance+ technology uses your desired depth and overhead clearance, along with chart data and navigation aids, to give you a suggested dock-to-dock path to follow¹

The Plotter Sync feature allows compatible chartplotter owners to transfer routes and markers, update chart layers and more — to and from the Boating app

A night mode display option optimizes viewing in low-light conditions and helps preserve your night vision

The Connections feature keeps you in touch with your friends and fellow boaters; and allows you to share your live location and tracks, routes and markers

Local edits from Boating app users and the ActiveCaptain® Community are integrated within the app

SonarChart™ Live mapping feature lets you create your own 1'/0.5 meter contour HD bathymetry maps in real time while navigating

Access real-time weather data, daily and hourly forecasts, as well as wind, weather buoys, tides and currents overlaid on your map

The Boating app is available as a separate purchase for Apple® and Android™ devices and offers a free trial before subscribing

Apple is a trademark of Apple Inc., registered in the U.S. and other countries. • Android is a trademark of Google LLC.

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations. Not all map features will display on all devices, particularly legacy devices. As engineering enhancements are ongoing, new features may not display on such legacy products.

ACTIVECAPTAIN® APP

Give yourself the advantages of the ultimate connected boating experience. Download the free all-in-one ActiveCaptain app. It provides a powerful connection to your Garmin chartplotter, charts, maps and the community. Wherever you are, you can have convenient access to your marine mapping — including a night mode map view that's optimized for low light — activate chart subscriptions, purchase and update maps and charts, plan your trips and access the Garmin Quickdraw™ Contours Community.

SPECIAL ACTIVECAPTAIN FEATURES

Use the built-in OneChart™ feature on the ActiveCaptain app to access and wirelessly update your charts from your mobile phone directly to your chartplotter

Receive smart notifications, such as calls and texts, on your chartplotter display when paired with the app

Download software updates and notifications from the app directly to your Garmin devices

Connect to fellow boaters with the ActiveCaptain community for up-to-date feedback on marinas and other points of interest

Make, save and transfer routes and waypoints between the app and chartplotter — with zero button presses¹

Easily upload and download the latest Garmin Quickdraw™ Contours content from the community

View and control your chartplotter from your smartphone or tablet²

Use with the OnDeck™ remote connectivity system to track, monitor and control up to 5 switches on your boat from virtually anywhere

¹Zero button presses applies to GPSMAP® chartplotters

²Helm only available on compatible GPSMAP units.

BLUECHART® CHARTS

Worldwide coverage available

NAVIONICS
A Garmin Brand

BLUECHART® G3

BlueChart g3 coastal charts provide coverage, clarity and detail with integrated Garmin and Navionics content. The charts also display suggested routes with Auto Guidance¹.

ADVANCED CHART DETAIL

Highly detailed charts with Navionics data help mariners guide their boats in and out of port with confidence.

DETAILED CONTOURS

Up to 1' contours provide a more accurate depiction of bottom structure for improved fishing charts and enhanced detail in swamps, canals and port plans.

DEPTH RANGE SHADING

Select depth range shading for up to 10 depth ranges to view your target depth at a glance.

AUTO GUIDANCE

Auto Guidance¹ technology calculates a suggested route to your destination.

BLUECHART® G3 VISION

BlueChart g3 Vision includes all the reliability, functionality and integrated Garmin and Navionics® content of BlueChart g3 while adding even features such as relief shading to help you along your journeys.

RELIEF SHADING

Highly detailed shading combines color and shadow to provide an easy-to-interpret, clearer view of bottom structure than contour lines alone.

AERIAL PHOTOGRAPHY

Pictures show exceptional detail of many ports, harbors and marinas. This is ideal when entering unfamiliar areas.

3D VIEWS

MarinerEye and FishEye views provide 3D representations of the surrounding area above and below the waterline.

SHALLOW WATER SHADING

Shallow water shading for a user-defined depth gives a clear picture of shallow waters to avoid.

HIGH-RESOLUTION SATELLITE IMAGERY

High-resolution satellite imagery overlaid onto navigational charts provides a realistic view of your surroundings.

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations. Not all chart features will display on all devices, particularly legacy devices. As engineering enhancements are ongoing, new features may not display on such legacy products.

BUILD, MANAGE AND CONTROL

BUILD A COMPLETE ONBOARD SYSTEM

The Garmin Marine Network and NMEA 2000® network allow you to easily view multiple functions, such as chartplotter, radar, sonar, AIS, on one or more displays. All Garmin Marine Network and NMEA 2000 devices come with an easy plug-and-play setup. The system automatically detects the devices in the network and makes them ready to use.

NMEA 2000 CONNECTIVITY

Utilize NMEA 2000 to connect FUSION-Link™ enabled audio systems, AIS, VHF, autopilots, engine data, fuel flow sensors and wind sensors.

WEATHER

CAMERA

GARMIN MARINE NETWORK

Utilize Garmin Marine Network to connect Garmin marine electronics such as sonar, radar, monitoring cameras, video data, and multiple MFDs and chartplotters.

RADAR

FUSION AUDIO

SONAR

AUTOPILOT

ENGINE DATA

WIND SENSOR

CONTROL. EVERYTHING.

ONEHELM™

Our integrated solution is designed to work with marine products manufactured by third-party companies to bring you the power and convenience of controlling onboard boat systems such as digital switching, lighting, stabilization and more. It's all in one simple, convenient control center — the screen of your Garmin MFD.

ONDECK™ SYSTEM

Keep tabs on systems such as battery, shore power, bilge or saltwater pumps and receive alerts if a security sensor is triggered or if your boat is moved from its GPS geofenced area. Get 24/7 peace of mind with OnDeck technology onboard¹.

GARMIN EMPIRUS™ DIGITAL INTEGRATIONS

These innovative and intelligent products, solutions and services provide a complete suite of embedded systems, power supply and power distribution, creating the backbone for complete digital control and smart boat features. EmpirBus components connected with Garmin MFDs allow cruisers, sailors and anglers to easily control virtually any device on their vessel — from propulsion to pumps, air conditioning to infotainment. This connectivity enhances situational awareness and helps make time on the water even more enjoyable.

¹An active subscription plan is required. Both the OnDeck Hub and user's device must have connectivity to 3G/4G network.

REMOTE CONNECTIVITY SOLUTIONS

ONDECK™ SYSTEM

Part no: 010-02134-00

When paired with the ActiveCaptain® app on your smartphone, the OnDeck remote connectivity solution lets you track, monitor and control multiple switches on your boat from virtually anywhere. Keep tabs on systems such as battery, shore power, bilge or saltwater pumps and receive alerts if a security sensor is triggered or if your boat is moved from its GPS geo-fenced area. Get 24/7 peace of mind with OnDeck technology onboard¹.

TRACK

Be the first to know if a security sensor has been triggered, or if your boat has been moved. The internal GPS sensor updates every 15 or 30 minutes, depending on power status, and will send text alerts¹ if your boat leaves the geofenced area.

MONITOR

Get updates¹ on your boat's battery status, bilge activity, shore power, temperature changes and more. Set up alarm notifications in the ActiveCaptain® app.

CONTROL

Control any number of NMEA 2000 latching or momentary switches, including battery chargers, ice makers and more.

ACTIVECAPTAIN APP

Download the ActiveCaptain app to your compatible smartphone or tablet to manage your vessel. It's where you can set up alarm notifications, take control of your boat and so much more¹.

STORE DATA

Securely collect vessel data with the GTB 10 OnDeck Hub and store it in the cloud for up to 30 days.

ONDECK HUB

The GTB 10 hub uses 3G/4G coverage.

DIGITAL SWITCHING AND MONITORING

GARMIN BOAT SWITCH

Get the integrated-boat experience with digital switching that allows you to operate onboard electrical functions right from your compatible GPSMAP® or ECHOMAP™ chartplotter. Control your nav lights, dimmable cabin lights, bilge and livewell pumps, and even your horn. The system installs without special tools and allows you to easily add and name switches on your chartplotter display.

ALL-IN-ONE

Replace existing two-element systems — fuse box and switches — for easier control and operation of onboard functions.

DIGITAL CONTROL

Get control and protection of up to 20 circuits via your chartplotter rather than a physical button or switch.

ON-OFF SWITCHES

The toggle outputs operate bilge pump and nondimmable lights, such as nav lights and courtesy lights.

DIMMABLE OUTPUTS

Press-and-hold dimmers let you set your preferred brightness on board.

MOMENTARY OUTPUTS

Control horns and more. Simply press and release for desired length of horn beep.

MONITOR TANKS

Access built-in tank sender detection and calibration for as many as four tanks, such as fuel, freshwater, graywater, blackwater and livewell.

LIVEWELL TIMER

A built-in timer turns the pump to cycle the water to keep fish alive — and keep pumps functioning longer.

GARMIN

DIGITAL SWITCHING AND MONITORING

EmpirBus brings all the power and convenience of advanced home automation to your vessel by allowing you to control and monitor all onboard electronic systems from your Garmin chartplotter or multifunction display: lighting, wipers, entertainment and security systems, air-conditioning, navigation lights and much more. EmpirBus replaces the standard mechanical circuit breakers and switches with state-of-the-art digital power distribution that provides reliable, convenient and easy-to-use operation.

ELEGANTLY SEAMLESS

An EmpirBus digital switching system comprises one or more compact digital distribution control modules (DCM) and master control units (MCU). The DCM supports between 16 and 31 circuits that are customized to meet the exact needs of the equipment being controlled. Each DCM connects to the existing NMEA 2000® network backbone, enabling it to communicate with the other DCMs and Garmin multifunctional displays via a WDU unit on the Garmin Marine Network. This flexible network architecture enables the DCMs to be mounted near the equipment they are controlling, providing a system that is simpler to install and troubleshoot. The MCU is the central processor that drives the system, providing computing power, intelligence and decision making. It talks to the other system components via the network.

CREATIVITY UNBOUND

EmpirBus systems feature fully customizable layouts and graphics that allow for every circuit switch or monitor to be shown in any configuration with a simple drag-and-drop graphic interface builder. Screens can even be personalized by uploading boat images.

USER INTERFACE FOR COMPATIBLE GARMIN CHARTPLOTTERS

AUDIO

FUSION® MARINE ENTERTAINMENT

FUSION® MARINE AUDIO

Enhance your time on the water with world-class marine audio entertainment products, including marine stereos, speakers, subwoofers and amplifiers. Our determination to continually innovate brings superior capabilities to our products, setting a new benchmark for marine audio entertainment.

FUSION DIGITAL SIGNAL PROCESSING (DSP)

A technically superior listening experience made simple, Fusion DSP optimizes the audio signal delivered to your Fusion entertainment system with preset profiles that can be set up for each audio zone on board. The result is superior sound quality at all volumes, in every listening environment.

WI-FI® AUDIO STREAMING WITH Apple AirPlay® 2

Wi-Fi audio streaming provides higher-quality audio with a faster data transfer rate than BLUETOOTH® technology. With Apple AirPlay 2, you can seamlessly stream audio from your compatible Apple® device to multiple Apollo™ Series stereos¹ connected on the same network.

¹MS-RA670/MS-WB675 will get Apple AirPlay 2, PartyBus and over-the-air software updates when connected via Ethernet to an external wireless router (sold separately), Garmin MFD or Apollo Series stereo network enabled with Wi-Fi technology. • Wi-Fi is a registered trademark of the Wi-Fi Alliance. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Garmin is under license. AirPlay and Apple are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google LLC. Google Play and the Google Play logo are trademarks of Google LLC.

FUSION® MARINE ENTERTAINMENT

STEREO NETWORKING

Connect multiple Apollo Series stereos¹ to the same network and enjoy integrated control of your boat's entire audio system. Key functionalities include:

STEREO GROUPING

Play the same synchronized audio source across multiple grouped stereos.

POWER OPTIONS

Turn on or off any stereo on the network from another stereo or remote.

VOLUME CONTROL

Individual or group volume control.

HOME ZONE

Easy access to audio control where the stereo is installed.

MULTI-ZONE™ TECHNOLOGY

Control your audio in up to four separate audio zones aboard your boat with Multi-Zone technology. Adjust the balance, subwoofer and volume levels — and name each zone for quick identification

MARINE PROTECTION

Designed specifically for use in the marine environment, Fusion products are perfectly at home on the water. They're made to withstand the elements and undergo ingress protection (IP) testing, pressure testing for speakers and subwoofers (ISO12216) and salt fog, UV, humidity and temperature testing.

FUSION AUDIO CONTROL

Link your Garmin MFD and Fusion marine stereo with Fusion-Link™ using an Ethernet or NMEA 2000® network wired connection for integrated audio control at the helm. Download the Fusion Audio app from the App Store® or Google Play Store™ to control your stereo from a compatible Apple® or Android™ device. You can also wirelessly control your stereo from a compatible Garmin smartwatch by downloading the Fusion® Audio app from the Connect IQ™ store app.

¹MS-RA670/MS-WB675 will get Apple AirPlay 2, PartyBus and over-the-air software updates when connected via Ethernet to an external wireless router (sold separately), Garmin MFD or Apollo Series stereo network enabled with Wi-Fi technology. • Wi-Fi is a registered trademark of the Wi-Fi Alliance. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Garmin is under license. AirPlay and Apple are trademarks of Apple Inc., registered in the U.S. and other countries. Android is a trademark of Google LLC. Google Play and the Google Play logo are trademarks of Google LLC.

FUSION® STEREOs

APOLLO™ MS-RA800

Amplify the moment with RA800 — our most advanced Fusion Apollo™ marine stereo to date. It features an upgraded internal amplifier plus a faster, more powerful processor with built-in DSP to support HD lossless audio. It also includes stereo networking for advanced audio zone control as well as Wi-Fi® connectivity and the AirPlay® 2 feature from Apple® for seamless streaming.

Sources: Apple AirPlay 2 / BLUETOOTH® / HDMI ARC / USB / iPhone®, iPod® / AUX x2 / AM, FM radio / DAB+

APOLLO™ MS-RA670

It features a brilliant, optically bonded, full-color LCD display; Fusion® DSP technology for a technically superior listening experience and system protection; Fusion-Link™ integration and control from compatible MFDs, smart devices and Garmin watches; Multi-Zone™ control of up to three audio zones; Apple AirPlay® 2 and PartyBus™-Network capabilities when connected to a Wi-Fi® or Apollo network. The Apollo RA670 is truly a powerful extension of the Apollo Series.

Sources: AM, FM, Bluetooth, Apple AirPlay 2, digital optical input, USB audio, iPhone®, iPod®, AUX x1, UPnP, MTP

APOLLO™ MS-WB675

Designed to save space at the helm while offering superior quality audio on board, the MS-WB675 is a compact hideaway stereo capable of being mounted inside storage lockers, helm consoles and other concealed compartments. Features include Fusion DSP and PartyBus via Ethernet for freedom of musical choice across your boat with Multi-Zone technology in four zones. When the MS-WB675 is connected via Ethernet to an external wireless router (sold separately), Garmin MFD or Apollo Series stereo network enabled with Wi-Fi technology, it will gain Wi-Fi audio streaming with Apple AirPlay 2 and over-the-air software updates. The MS-WB675 is designed to integrate with compatible Garmin MFDs and Fusion wired remotes such as the MS-ERX400.

Sources: Apple AirPlay 2 / Universal Plug and Play (UPnP) / BLUETOOTH / digital optical in / USB / iPhone, iPod / AUX x1 / MTP / AM, FM radio / DAB+ ready (requires MS-DAB100A module)

APOLLO™ MS-SRX400

A perfect companion to the MS-RA800, the MS-SRX400 zone stereo combines premium design and superior sound in a compact form factor. It features a 2.7" optically bonded color LCD and built-in Wi-Fi and Apple AirPlay 2 for seamless high-quality audio streaming. Enjoy superior sound quality with Fusion DSP. PartyBus via Ethernet or Wi-Fi gives you the freedom of musical choice across your boat. Easily keep your stereo up to date with the latest features via over-the-air software updates.

The MS-SRX400 supports audio control from compatible MFDs and smart devices.

Sources: Apple AirPlay 2 / Universal Plug and Play (UPnP) / BLUETOOTH / AM, FM radio

FUSION® STEREO

MS-RA210

The MS-RA210 marine stereo is a stylish option for your boat that incorporates some Apollo Series' features, including a 2.7" optically bonded color LCD, Fusion DSP and Multi-Zone™ technology that gives you the option to control your audio in two zones. It supports audio control from compatible MFDs, smart devices and Garmin smartwatches.

Sources: BLUETOOTH / USB / iPhone, iPod / AUX x1 / MTP / AM, FM radio / DAB+ ready (requires MS-DAB100A module)

MS-BB100

Designed to save space at the helm, the MS-BB100 is a compact black box stereo capable of being hidden away in the dash or mounted inside storage lockers, helm consoles and other concealed compartments. Featuring Multi-Zone technology, it gives you the option to control your audio in two zones and supports audio control from compatible MFDs, smart devices and Garmin smartwatches. A wired remote is included, allowing you to control the MS-BB100 while occupying minimal dash space at the helm.

Sources: BLUETOOTH / USB / iPhone, iPod / AUX x1 / AOA / AM, FM radio / DAB+ ready (requires MS-DAB100A module)

MS-RA60

This modern, compact and economical marine stereo features a 2.3" perimeter bonded monochrome LCD, Multi-Zone technology that gives you the option to control your audio in two zones and support for audio control from compatible smart devices and Garmin smartwatches. Easily keep your stereo up to date with the latest features via over-the-air software updates from the Fusion Audio mobile app on your compatible device.

Sources: BLUETOOTH / AUX x1 / AM, FM radio / DAB+

FUSION® STEREO

FUSION® MS-NRX50

Enjoy single-knob control of your audio volume out on the water with this easy-to-use device. The wired controller connects to your boat's NMEA 2000 network and is IPX7-rated for harsh marine environments. Its large control knob simultaneously adjusts all audio zones of a single stereo, with simple play/pause control at the push of a button. The controller's front-mounted design requires just a single 1.5" (38 mm) hole for easy installation on your dash.

MS-ARX70

Enjoy the freedom to control your audio from anywhere around your boat with the MS-ARX70 wireless remote. Rated both IPX6 and IPX7 for water-resistance, it's perfect for the swim platform, bow, transom or anywhere you want quick audio adjustment. Fitted with high-bonding tape, installation is super easy — simply place and pair with your compatible Fusion stereo without the need to cut holes, run wires or add screws.

APOLLO™ MS-ERX400

Sleek, compact and easy to install, the MS-ERX400 wired remote allows you to add intuitive and integrated audio control to any zone on your boat. It features a 2.7" optically bonded color LCD and full PartyBus™-Network control. Installation is easy with only a single ERX400 network/power cable, and the ultra-shallow mounting depth of 1.93" (49 mm) allows the remote to be mounted in a variety of areas on board.

MS-NRX300

Take control of your audio entertainment with the MS-NRX300 black wired remote and enjoy localized audio control from any zone on board your boat. Featuring a 2.6" optically bonded dot matrix LCD, the remote is designed to perform and last on board. Installation is easy with only a single NMEA 2000® drop cable. When the MS-NRX300 is connected to an existing NMEA 2000 network with other marine electronics, the remote can also display data such as wind data, depth, speed, heading, position, ETA and water temperature.

FUSION® SPEAKERS AND SUBWOOFERS

APOLLO™ COAXIAL SPEAKERS

Surrender to the sound with Fusion Apollo™ coaxial marine speakers, and enjoy immersive, high-fidelity audio on the water. Complete the look, and customize your speakers with the included interchangeable grilles (sports white or sports gray is included; others are sold separately). Showcase your boat with the dual-hue LED lighting rings that provide a unique look.

Available in: 6.5" | 7.7" | 8.8"

APOLLO™ SUBWOOFERS

Don't just hear the music. Feel it. Surrender to the sound with Fusion Apollo™ marine subwoofers, and complement your music with immersive and high-fidelity bass on the water. Complete the look, and customize your subwoofers with the included interchangeable grilles (sports white or sports gray is included; others are sold separately). Showcase your boat with the dual-hue LED lighting rings that provide a unique look.

Available in: 10" | 12"

XS SERIES SPEAKERS

Enjoy high-performance acoustics and multicolor RGB LED lighting (requires Fusion MS-RGBRC wireless remote for full illumination control) with the XS Series speakers. The injection-molded polypropylene cone provides clean, clear audio reproduction while the aluminum dome tweeter delivers a smooth upper frequency response. The grilles are easily interchangeable with 2 colors included in the box (others sold separately), allowing you to match the style to your boat.

Available in: 4" | 6.5" | 7.7"

XS SERIES SUBWOOFERS

Enjoy high-performance, low-end frequencies and multicolor RGB LED lighting with the XS Series subwoofers. The injection-molded polypropylene cone produces defined low frequencies while the large voice coil delivers increased power. The grilles are easily interchangeable with 2 colors included in the box (others sold separately), allowing you to match the style to your boat.

Available in: 10"

FUSION® SPEAKERS AND SUBWOOFERS

SIGNATURE SERIES 3i CLASSIC SPEAKERS

Bring on the elements. The Signature Series 3i coaxial speakers deliver crystal-clear audio and withstand the conditions like never before. With material enhancements for the harsh marine environment, these speakers feature new marinized connectors and a redesigned grille for easy installation and superior protection. CURV® Cone Technology creates a lighter and stronger composite for greater sound definition at a higher volume so you can enjoy that uncompromisingly pure listening experience on your boat, season after season.

Available in: 6.5" | 7.7" | 8.8"

XS SERIES WAKE TOWER SPEAKERS

The XS Series wake tower speakers deliver high-performance acoustics and multicolor RGB LED lighting for your wake boat. These speakers combine an injection-molded polypropylene cone with a precisely calculated enclosure for optimized sound on the wake. Multiple mounting accessories are available (sold separately), making onboard installation quick and easy. The grilles are easily interchangeable (sold separately), allowing you to match the style to your boat.

Available in: 6.5"

XS SERIES WAKE TOWER MOUNTING BRACKETS

These mounting brackets are designed for the XS Series 6.5" and Signature Series 3i 6.5" wake tower speakers. They're user-adjustable to fit wake tower bars of different diameters. The 2.5" pipe-mount bracket fits bars from 2" (50.8 mm) to 2.5" (63.5 mm) and the 2" bracket fits bars from 1.75" (44.5 mm) to 2" (50.8 mm). A flat mount bracket is also available for mounting onto a flat surface. They feature a UV-stable and salt fog-resistant aluminum alloy design.

Available in: 2.5" PIPE MOUNT | 2" PIPE MOUNT | FLAT MOUNT

FUSION® SPEAKERS AND SUBWOOFERS

FM SERIES SPEAKERS

These flush-mount marine speakers are designed to deliver quality acoustics with a sleek and minimalistic aesthetic to meet modern boat design trends. Featuring a nonintrusive mounting system, they easily mount without the need to create screw holes in your boat. The injection-molded polypropylene cone provides clean, clear audio reproduction, while the aluminum dome tweeter delivers a smooth upper frequency response.

Available in: 6.5" | 7.7"

FM SERIES SUBWOOFERS

These flush-mount marine subwoofers are designed to enhance your on-water listening experience with quality bass in a sleek and minimalistic aesthetic. Featuring a nonintrusive mounting system, they easily mount without the need to create any screw holes in your boat. The injection-molded polypropylene cone produces defined low frequencies while the large voice coil delivers increased power.

Available in: 10"

SM SERIES SPEAKERS

These shallow-mount speakers are designed for interior installations where mounting depth may be limited, with a depth requirement of only 0.94" (24 mm). A tuned, sealed enclosure with an optimized 3" speaker driver provides quality audio and protects the inner components, allowing these speakers to be installed without the need for rear speaker cups.

Available in: 6.5"

EL SERIES SPEAKERS

Enjoy quality audio and multicolor RGB LED lighting (select sports style models, requires Fusion MS-RGBRC wireless remote for full illumination control) in a shallow-mount design. These speakers have a mounting depth requirement of 1.69" (43 mm), providing versatile installation on board. The injection-molded polypropylene cone provides clear audio reproduction while the lightweight voice coil delivers increased efficiency. The grilles are easily interchangeable (sold separately) allowing you to match the style to your boat.

Available in: 6.5"

FUSION® AMPLIFIERS AND ACCESSORIES

APOLLO™ AMPLIFIERS

Amplify the moment. The Fusion Apollo amplifiers are the difference between hearing the music and feeling it. Designed for use with compatible Fusion DSP-enabled stereos¹, these amplifiers feature easy tune setup (requires Fusion Audio mobile app on your compatible device) for automatic regulation of audio settings, so you can enjoy the best quality sound without needing to make manual adjustments. With minimal distortion and noise, multichannel models are capable of producing an impressive 150-watt RMS per channel and the monoblock model produces 650-watt RMS to drive a subwoofer. A compact zone amplifier is also available for audio zone expansion, allowing you to add speakers to more areas of your boat. Mounting brackets and accessory connectors are included, simplifying installation and wiring.

Available in: MONOBLOCK | 4 CHANNEL | 6 CHANNEL | 8 CHANNEL | ZONE AMPLIFIER

SIGNATURE SERIES AMPLIFIERS

Experience the power of music. The Signature Series amplifiers are designed to take your listening experience to a new level. With impressive protection from the marine environment, they deliver efficient, powerful performance on the water. Built to last on board, they feature conformal coated circuitry and an aluminum alloy heat sink for enhanced heat dissipation.

Available in: MONOBLOCK | 4 CHANNEL | 5 CHANNEL | 6 CHANNEL | 24-VOLT 6 CHANNEL | 8 CHANNEL

SIGNATURE SERIES 3i TWEETERS

Enhance your listening experience while on the move. These compact tweeters are designed to be mounted in raised positions to restore high frequencies so you can clearly hear vocals over engine, wind and wave noise. Water-resistant connectors provide simplified installation and superior protection against the elements.

FUSION® STEREO AND SPEAKER KITS

MS-RA210 AND XS SPEAKER KIT

Easily upgrade your existing audio entertainment system with a MS-RA210 stereo, a pair of XS Series non-illuminated speakers, NMEA 2000® drop cable, speaker cables, AM/FM antenna and mounting accessories. You'll have everything you need to quickly get out on the water and enjoy high-performance audio. Add additional speakers, subwoofers and amplifiers (each sold separately) for a superior on-water audio entertainment experience.

Available in: CLASSIC WHITE | SPORTS GRAY

MS-RA60 AND EL SPEAKER KIT

Easily upgrade your existing audio entertainment system with a MS-RA60 stereo, a pair of EL Series non-illuminated speakers, speaker cables, AM/FM antenna and mounting accessories. You'll have everything you need to quickly get out on the water and enjoy quality audio at an outstanding value. Add additional speakers, subwoofers and amplifiers (each sold separately) for an enhanced on-water audio entertainment experience.

Available in: CLASSIC WHITE | SPORTS GRAY

GREAT SOUND FOR GREAT TIMES ON THE WATER

No matter what type of boat your voyage involves, there's nothing like a great audio system to set the tone for your fun times on board.

For nearly half a century, the name JL Audio has been synonymous with premium-engineered audio products that set the industry standard for performance, quality, value and reliability in challenging marine environments.

From loudspeakers, amplifiers and source units to subwoofers and accessories, the JL Audio lineup offers all the high-end components you need to create the ultimate on-water listening experience.

Crafted of the highest-quality materials, all JL Audio marine products are subjected to rigorous testing against harsh marine conditions, using high-tech simulations of real-life challenges, including water, moisture, UV exposure, salt and fog. As a result, these robust products easily exceed industry norms for environmental longevity to ensure years of consistent performance on your boat.

Fact is, if you're not hearing your favorite music through a JL Audio system, you're surely missing out on the clearest, richest, most dynamic sound reproduction ever to carry over the water.

BUILT FOR TRUE MARINE DUTY

PROTECTION FOR MARINE ENVIRONMENTS

Known for their durability and moisture resistance in harsh environments, all JL Audio marine products are built to deliver years of listening enjoyment and resistance to the elements. They're subjected to rigorous environmental testing and easily exceed international standards for salt/fog and UV exposure.

LET'S NETWORK

MediaMaster® marine source units from JL Audio are compatible with OneHelm™ data interfaces, allowing you to control your onboard audio systems — as well as other boat systems — from the screen of your networked Garmin MFD.

MARINE AMPLIFIERS WITH INTEGRATED DSP

Digital Signal Processing (DSP) technology permits each channel's timing, frequency response and output levels to be optimized for exceptional sound quality.

TüN® 4 SOFTWARE

Free TüN software is available for personal computers and compatible handheld devices. Its intuitive interface makes it easy to set up and adjust each amplifier channel's timing, frequency response and output levels for exceptional sound quality. Complex settings can be saved as presets for quick recall via a digital remote controller accessory.

PATENTED AMPLIFIER TECHNOLOGY

NEXD™ SWITCHING TECHNOLOGY

Small size, minimal heat, lots of power — Class-D amplifier design offers significant advantages. And our NexD switching technology adds even more, using enhanced pulse width modulation techniques to boost the amplifier's bandwidth while minimizing distortion and improving efficiency.

Available in: XDM and MX series amplifiers

NEXD2™ SWITCHING TECHNOLOGY

A next-level approach to improving what is already an outstanding Class-D design platform. NexD2 amplifier technology from JL Audio employs new components and more advanced circuit layouts to achieve significant enhancements in audio fidelity and power efficiency.

Available in: MVi series amplifiers

ADVANCED ROLLBACK PROTECTION

Should a JL Audio amplifier equipped with advanced rollback protection reach an unsafe operating temperature, a special circuit rolls back peak power output, without changing gain, until the amplifier cools down to a safe operating temperature. Once the amplifier cools down, the circuit restores full peak power output, and the indicator reverts to its normal state. The operation is inaudible in most cases, but it ensures that your music keeps on playing, even under the most demanding conditions.

Available in: MVi, MHD and XDM series amplifiers

REGULATED, INTELLIGENT POWER SUPPLY (R.I.P.S.™)

A central feature of the premium marine amplifiers from JL Audio, R.I.P.S. technology seamlessly adjusts and monitors operation to ensure consistent power delivery over a wide range of battery voltages and load impedances. With R.I.P.S., optimum power is achievable at any impedance between 1.5 ohm and 4 ohm per channel, and at any vehicle voltage between 11 volts and 14.5 volts.

Available in: MHD series amplifiers

SINGLE CYCLE CONTROL™

With this innovative JL Audio approach to Class-D amplifier control, audio correction is applied more than 400,000 times per second to eliminate distortion-causing signal anomalies and deliver unprecedented audio quality with reduced current draw and heat.

Available in: MHD series amplifiers

LIGHTING EFFECTS

TRANSFLECTIVE™ LED LIGHTING

This patented lighting technology, optional on most M6 and M7 series marine speakers, emits light through a specially engineered cone material to deliver a beautiful illumination effect with no hotspots or reflections on the cone surface. Select from a palette of fixed lighting colors — or add an optional RGB controller (sold separately) to create thousands of color variations. For even more versatility, add the optional Garmin Spectra™ marine lighting system and enjoy control of the LED lights on your boat from your compatible Garmin chartplotter or the ActiveCaptain® app on your compatible smartphone.

JL AUDIO® SOURCE UNITS

TAKE CHARGE OF YOUR AUDIO EXPERIENCE

Quality audio begins with a clean signal from a well-engineered source unit. Our MediaMaster® marine source units offer a wide variety of tuner and connectivity options for maximum listening flexibility and convenience on the water. Each model prioritizes audio performance with audiophile-quality, line-level outputs — ideal for use with JL Audio marine amplifiers. The helm-mount MediaMaster source units feature a beautiful full-color LCD display designed to be visible in bright sunlight. Certified NMEA 2000® connectivity is included for direct integration with vessel networks, allowing control from a variety of marine multifunction displays (MFDs). Enjoying quality audio on the water has never been easier or sounded better.

MM105

Equipped with a variety of tuner and connectivity options, plus multizone level controls, the MediaMaster MM105 model features weather-resistant construction (minimum IP66 rated) with large controls and full-color LCD displays incorporating selectable lighting themes — Day or Night. The unit includes an AM/FM tuner¹, BLUETOOTH® connectivity, USB connections with charging for USB drives or iPhone® devices plus 2 auxiliary RCA inputs — all designed to ensure nonstop enjoyment of the soundtracks to all your adventures.

MM105-HR

Operating behind the scenes as a hidden receiver, the MediaMaster MM105-HR includes all the features of the MM105, minus the LCD display. It can be controlled directly from your compatible MFD² or with the optional MMR-40 NMEA 2000 network controller, which has a full-color LCD display.

MM55

While the MediaMaster MM105 offers only line-level preamp outputs, the MM55 source unit is equipped with both line-level outputs and a robust 4-channel, 100-watt onboard amplifier (25-watt RMS x 4 channels) to directly power your loudspeakers. In addition to NMEA 2000 network connectivity, the MM55 offers a variety of source and media options that include global radio tuners, a USB input, analog AUX input and streaming audio capabilities, courtesy of BLUETOOTH® wireless technology.

MM55-HR

Including all the features of the MediaMaster MM55, minus the LCD display, the MM55-HR is a hideaway source unit that can be controlled directly from your compatible MFD² or with the optional MMR-40 NMEA 2000 network controller, which has a full-color LCD display.

MMA-1-HTML

This NMEA 2000-certified data interface for the MediaMaster MM105, MM105-HR, MM55 and MM55-HR source units is designed to interface MediaMaster-themed navigation and controls directly into your vessel's compatible MFD. This lets you pilot your boat and control your audio system seamlessly via your helm's MFD.

¹Digital HD radio (North America) and DAB+ radio (Europe) services subject to local availability • ²Refer to MFD manufacturer for compatibility information • NMEA®, NMEA 2000®, and the NMEA 2000 logo are registered trademarks of the National Marine Electronics Association. • The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Garmin is under license. • iPhone is a trademark of Apple Inc., registered in the U.S. and other countries.

REMOTE CONTROLLER OPTIONS

MMR-40 WIRED NETWORK CONTROLLER

Full-function NMEA 2000® network controller with full-color LCD display, for use with MediaMaster source units.

MMR-20-BE ROUND WIRED REMOTE

Non-display remote controller for use with MediaMaster source units.

MMR-25W BLUETOOTH® REMOTE CONTROLLER

Wireless remote controller for use with MediaMaster source units.

MMR-5N2K NETWORK VOLUME CONTROLLER

NMEA 2000 network compatible audio volume controller for MediaMaster.

MEDIAMASTER REMOTE APP

Easily navigate and command your boat's MediaMaster audio system from up to 35' away (11 meters) via wireless BLUETOOTH technology, using your compatible smartphone or tablet device.

BLUETOOTH RECEIVERS AND CONTROLLERS

MBT-CRXv3 AUDIO CONTROLLER AND RECEIVER

Using BLUETOOTH technology, this compact, water-resistant (IP67 rated) controller/receiver can receive audio wirelessly from your compatible streaming device up to 35' (11 meters) away. Independent audio zone level controls with LED color indicators ensure effortless command of your sound system while your streaming device is stowed safely away.

MBT-RXv2 WIRELESS AUDIO RECEIVER

The MBT-RXv2 is a compact, water-resistant Bluetooth receiver designed to add high-quality audio streaming to any sound system with line-level inputs, commonly used in boats, powersports vehicles, and other outdoor applications. It features Bluetooth 5.0 with the Qualcomm aptX HD codec for high-resolution audio, a sealed and IPX7-rated chassis for water resistance, and RCA outputs to connect to amplifiers.

JL AUDIO® SPEAKERS AND SUBWOOFERS

DISCOVER A SUPERIOR MARINE AUDIO EXPERIENCE

On seagoing and freshwater boats of all types, the JL Audio brand stands for unmatched quality, fidelity and power-handling performance in marine loudspeaker systems. Built with premium-grade materials, these speakers and subwoofers are rigorously tested using advanced salt-fog and UV test equipment, simulating years of exposure to the elements. As a result, these products far exceed typical industry standards for environmental longevity testing and performance in open-air marine audio installations.

M6 SPEAKERS AND SUBWOOFERS

M6 COAXIAL SPEAKERS

Engineered for stand-alone use or in conjunction with our marine subwoofers, M6 series marine speakers are built to deliver unmatched audio fidelity on the water. Equipped with a front-mounted tweeter, suspended above a woofer, all M6 coaxial systems are optimized to yield superior frequency response and smooth midrange dispersion. Long-excursion, DMA-optimized woofers and matching silk dome tweeters for each coaxial size produce superior output capability with impressive bass response and sparkling high frequency detail. For added visual interest, patented Transflective™ LED lighting is available as an option.

Available in: 6.5" | 7.7" | 8.8"

Grille option: Sport White, Sport Gray, Classic White

M6 ENCLOSED SPEAKERS

Equipped with our maximum-performance M6 speakers, the enclosed M6-ETXv3 and M6-VEX™ systems are designed to deliver pure audio delight – with strong projected output from your wake tower or other open-air installation. Available in 2 sizes, M6-ETXv3 models feature sleek marine-grade polymer enclosures for outstanding durability and clarity on larger vessels. For smaller boats or personal watercraft, the compact 6.5" M6-VEX pods are housed in tough, injection-molded enclosures and are optimized for use with a high-quality subwoofer system. Optional built-in RGB LED accent lighting is available on both the M6-ETXv3 and M6-VEX systems.

M6-ETXv3 models available in: 7.7" | 8.8"

M6-VEX models available in: 6.5"

Grille option: Sport White, Sport Gray, Classic White

M6 COMPONENT TWEETERS

Premium M6 series 1" component tweeters are built to deliver high output, wide dispersion and sparkling high-frequency detail to your onboard audio system. The light, fast-moving silk dome tweeter diaphragm provides excellent off-axis response and damping for balanced coverage in your listening environment. Plus, an automatic, solid-state circuit is on board to monitor current and minimize the possibility of tweeter failure. Flush- and surface-mount fixtures are included, and three mounting cup, tweeter mesh and trim ring combinations are offered. Like all M6 models, these component tweeters are built to withstand real-world saltwater conditions with an unsurpassed level of fidelity.

Available in: 1.0"

Grille option: Sport White, Sport Gray, Sport Titanium

M6 SUBWOOFERS

Available in 8" and 10" sizes, the M6 series subwoofers are an essential part of the JL Audio formula for great marine audio. A properly set up subwoofer system frees your smaller main speakers from the burden of reproducing the lowest frequencies in your music, allowing your whole system to play louder and sound cleaner at all listening levels. For visual interest, patented Transflective LED lighting is available on all models, producing smooth cone illumination with no hotspots or reflections on the cone surface.

Available in infinite baffle (IB) or enclosed use (W): 8" | 10"

Grille option: Sport White, Sport Gray, Classic White

JL AUDIO® SPEAKERS AND SUBWOOFERS

M7 SUBWOOFERS

Known as the “King of Bass,” these massive JL Audio 12” subwoofers feature oversized, overbuilt components and powerful motor systems to produce staggering amounts of jaw-dropping bass in your marine audio system. A 4” voice coil and rugged suspension system deliver outstanding linear excursion for high output and power handling. Patented Transflective™ LED lighting is optional on all M7 models, emitting a smooth lighting effect through the woofer cone, with a choice of several lighting colors. Add an optional RGB controller to create thousands of color variations. Professional installation is recommended.

Available in: 12” infinite baffle

Grille option: Sport White, Sport Gray, Classic White

LUXE GRILLE SPEAKERS AND SUBWOOFERS

M6 LUXE SPEAKERS

Featuring low-profile, fine mesh grilles with marine-grade finishes, these Luxe Grille M6 coaxial speakers combine discreet design with top-flight audio performance for luxury marine installations. A long-excursion, DMA-optimized woofer and matching silk dome tweeter deliver superior output capability with impressive bass response and sparkling high-frequency detail. Exceeding expectations for performance in harsh marine environments, these premium M6 speaker systems are found in some of the finest, most elegant boats in the world.

Available in: 6.5” | 7.7” | 8.8”

Grille option: White, Black

M6 LUXE SUBWOOFERS

Able to generate smooth, powerful bass while blending in with the finest vessel designs, these Luxe Grille M6 subwoofers are built with rugged suspension systems and long excursion capabilities to bring out the best in your JL Audio marine sound system. The Luxe subwoofers are outfitted with a low-profile mounting bezel and a fine mesh grille for minimal protrusion into cabin space. Like all M6 loudspeakers, this Luxe version is built to withstand a real saltwater marine environment for years of high-end listening enjoyment.

Available in infinite baffle (IB): 8” | 10”

Grille option: White, Black

JL AUDIO® SPEAKERS AND SUBWOOFERS

M3 SPEAKERS

M3 COAXIAL SPEAKERS

Born from the same DNA as the flagship JL Audio M6 drivers, our M3 marine speakers are engineered for those who value outstanding sound quality at a lower price point. Built alongside their M6 counterparts, the M3 series uses the same marine-grade materials to ensure outstanding longevity in open-air environments. Designed to benefit from operation with quality amplification, M3 marine speakers are also suitable for use with standard marine head-unit power. Built-in RGB LED lighting is also available on all sport grille M3 models to add visual highlights to your boat.

Available in: 6.5" | 7.7"

Grille option: Sport White, Sport Gray, Classic White

M3 ENCLOSED SPEAKERS

Sealed enclosures for these M3 series speakers are tuned to provide optimal sound while keeping the elements out. They're ideal for delivering clean, loud audio from your wake tower or other open-air installation. For larger vessels, the M3-ETXv3 systems' sleek polymer enclosures house an oversized 7.7" coaxial driver for fuller sound with strong mid-bass output. For smaller boats or personal watercraft, the ultra-compact 6.5" M6-VEX™ pod speakers are housed in tough, injection-molded enclosures and are optimized for use with a high-quality subwoofer system. Optional built-in RGB LED accent lighting is available on both the M3-ETXv3 and M3-VEX™ systems.

M3-ETXv3 available in: 7.7"

M3-VEX available in: 6.5"

Grille option: Sport White, Sport Gray, Classic White

M3 SUBWOOFERS

Delivering outstanding sub-bass performance in moderate power applications, the M3 series of infinite-baffle subwoofers provides a strong but affordable foundation for your boat's audio system. Designed with the same DNA as our flagship M6 series speakers, the M3 subwoofers deliver rich bass that will impress you, not only with its sheer level, but also with its smoothness, balance and precision. For visual interest, optional built-in RGB LED accent lighting is available on M3 sport grille models.

Available in: 10" infinite baffle

Grille option: Sport White, Sport Gray, Classic White

STOWAWAY AND SPEAKER ACCESSORIES

STOWAWAY™

STOWAWAY ENCLOSED SUBWOOFER SYSTEMS

Purpose-built for adding outstanding bass performance in unconventional applications, these rugged StowAway™ subwoofer systems take full advantage of the extremely small box requirements of the TW1 driver to generate smooth, powerful and articulate bass from surprisingly compact enclosures. All models feature a down-firing hard-shell enclosure that can be mounted almost anywhere.

Available in: 10" | 12"; 2 ohms or 4 ohms

SPEAKER ACCESSORIES

MLC-RW MARINE LIGHTING CONTROLLER

This compact LED lighting controller works with your LED speakers to give you total control over the light show on your boat. It fits almost anywhere and lets you choose from fixed lighting colors or custom control of the color and intensity of your lighting. It produces up to 30 amps (400 watts) of continuous output to power your light system, and you can use it with the rotary encoder or control lighting remotely by using the built-in Wi-Fi® connection and the LiteWave app on your compatible smartphone.

LIGHT CAPS FOR ETXv3

Purpose-built for ETXv3 enclosures, each of these machined aluminum caps features a built-in, down-firing LED light strip to illuminate the area below it. For retrofitting, each light cap can mount over an enclosure's existing rear logo cap.

ETXv3 MOUNTING HARDWARE

Featuring a tough, clear anodized finish that's UV/corrosion resistant, mounting fixtures for ETXv3 enclosures are available to fit a variety of OEM boat towers. Each fixture is precision-machined from marine-grade aluminum to create rock-solid attachment points.

NEOPRENE COVERS FOR ETXv3

Constructed from 3-mm neoprene, these durable protective cases are designed to provide stylish but serious protection for JL Audio ETXv3 enclosed speaker systems. They're designed to work with any mounting clamp/application, and a high-quality #5 zipper with locking slider on the front facilitates quick, easy covering or removal.

JL AUDIO® AMPLIFIERS

THE POWER BEHIND YOUR PREMIUM AUDIO EXPERIENCE

Benefitting from decades of JL Audio engineering experience, these cutting-edge amplifiers combine superb sonic quality with high-efficiency design that draws less current per watt of power output versus conventional marine systems. This allows these amps to be more compact, run cooler and reduce stress on your boat's electrical system. From the ultracompact MX series amplifiers to our state-of-the-art MVi models with integrated Digital Signal Processing (DSP), you are certain to find the right model to fit your system's needs — allowing you to enjoy clean, pure audio output and legendary durability for years of reliable marine service.

MVi AMPLIFIERS WITH INTEGRATED DSP

Engineered for first-class audio fidelity, the MVi series marine amplifiers combine a full range of advanced DSP functions with cutting-edge NexD2™ amplifier technology. The result is a striking new level of audio performance and onboard tuning capabilities. Adjustable high-pass and low-pass filters allow you to customize audio output to match your speaker setup. And instead of traditional knobs and switches, free TüN™ software on your PC, tablet or smartphone is used to make all setup and audio adjustments. To protect against the elements, the MVi series utilizes a powder-coated cast alloy chassis with corrosion-resistant hardware and connectors.

Available in: Monoblock 600-watt or 1000-watt | 2-channel 600-watt | 4-channel 400-watt | 5-channel 700-watt or 1000-watt | 6-channel 600-watt | 8-channel 800-watt

Accessories: MVi-HUB Network Hub, M-DRC-50 Digital Preset Controller, MVi-DRCADAPT Rotary DRC Adaptor

XDM AMPLIFIERS

In the XDM series of marine amplifiers, advanced NexD™ switching technology achieves exceptional efficiency, reducing current draw and heat for reliable, high-power output within a compact, easy-to-install unit. With total amplifier efficiencies exceeding 80%, the XDM series' energy-saving advantages also make them much kinder to your boat's electrical system than conventional amplifiers of similar power. Beneath each amplifier's sealed security cover, you'll find studio-grade signal processing with fully variable crossover filters. Differential-balanced inputs support outstanding noise rejection and crystal-clear audio performance on your boat.

Available in: Monoblock 300-watt, 600-watt or 1000-watt | 2-channel 200-watt | 3-channel 500-watt | 4-channel 400-watt | 5-channel 700-watt or 1000-watt | 6-channel 600-watt | 8-channel 800-watt | 24-volt 6-channel 600-watt or 8-channel 800-watt

Accessories: M-RBC-1 Remote Bass Control

MHD AMPLIFIERS

Combining groundbreaking Single Cycle Control™ switching and regulated, intelligent power supply (R.I.P.S.™) technologies, these MHD stereo amplifiers deliver world-class, full-range fidelity and ultra-powerful output from a surprisingly small package. The amplifiers' advanced technology wastes very little power compared to conventional marine systems, resulting in less heat being generated for each watt of output. This allows more clean, raw power to be extracted from a very space-efficient chassis. Plus, the fact that all MHD amplifier models share the same compact footprint makes for easy stacking of units in tight-space installations.

Available in: Monoblock 750-watt | 4-channel 600-watt | 5-channel 950-watt | 24V 4-channel 600-watt or 5-channel 950-watt

Accessories: MHD-RLC Remote Level Control, HD_STACK_KIT Amplifier Stacking Hardware

MX AMPLIFIERS

Ultracompact and ultra-efficient, these MX series amplifiers pack a serious audio punch to bring your music to life. They employ an advanced NexD™ switching design with a full range of high-end signal processing capabilities to generate loads of clean power while minimizing distortion and improving efficiency overall. The space-saving, powder-coated cast aluminum chassis is corrosion resistant and boasts an IPX7 water-resistance rating, making it ideal for applications where humidity and moisture are part of the equation.

Available in: Monoblock 300-watt or 500-watt | 4-channel 280-watt or 500-watt | 3-channel 600-watt

Accessories: M-RBC-1 Remote Bass Control

JL AUDIO® MARINE CONNECTION SYSTEMS

QUALITY ENGINEERED FOR TOUGH MARINE ENVIRONMENTS

AUDIO INTERCONNECTS

Our marine audio interconnect cables feature brass connector bodies with marine-grade plating and an over-molded design that prevents corrosion. Twisted pair construction minimizes the likelihood of induced noise to keep your music clean.

JACKS FOR PANEL MOUNTING

Weatherproof panel-mounting jacks allow you to create a permanent connection point for a wide variety of portable audio sources.

AMPLIFIER POWER KITS

Enhance the safety of your audio system and vessel with secure power connection wiring and the included marine circuit breaker. As with all our premium kits, the power wire is true AWG-spec, pure OFC copper, which is tinned to combat corrosion.

BATTERY CONNECTORS

The XB-BTU battery connector is ideal for systems requiring multiple power connections at the battery. The included adapter collar allows it to be used for negative or positive post connections. OmniSert™ technology ensures secure, high-integrity wire contact.

DISTRIBUTION BLOCKS

Four-way or two-way MAXI™ fused power distribution blocks accept wire from 1/0 to 4 AWG, while the fused outlets each accept wire from 4 AWG to 8 AWG. OmniSert receptacles capture various size wires without the need for adapter sleeves. Fuses sold separately.

MASTER CIRCUIT BREAKERS

Protect your marine audio system with these waterproof, ignition-protected XMD-MCB series circuit breakers. They eliminate the need to replace blown fuses and can withstand immersion in water up to 1 meter deep.

POWER WIRE

Premium tinned OFC copper power wire is available in ABYC standard red or yellow jackets and produced to true 6 AWG or 2 AWG specifications. The flexible PVC jackets are oil- and gas-resistant with UV inhibitors.

SPEAKER WIRE

Premium 12 AWG or 16 AWG marine speaker cable features parallel conductors, tinned for corrosion resistance. The soft, white PVC jacket makes the wire very flexible, and the all-copper wire construction makes sure your signals are transmitted with minimal resistance.

MULTIFUNCTION WIRE

Marine-grade, 6-conductor, white multifunction cable conveniently includes speaker and power wire for LED speakers, all in one cable. It's ideal for use with JL Audio speakers and subwoofers featuring built-in RGB LED illumination.

GARMIN SPECTRA™ LED CONTROL MODULE

010-02829-00 | Garmin Spectra™ LC102

010-02830-00 | Garmin Spectra™ LC302

Set the vibe for your ride with the Garmin Spectra marine lighting system. This compact lighting controller makes it easy to control LED lights on your boat with your compatible Garmin chartplotter or the ActiveCaptain® app on your compatible smartphone. Fusion Apollo™ marine stereos can control select functions (including scene selection, choosing audio sync modes and effects) from the stereo UI. You can also control LED illumination on Fusion® and JL Audio speakers and subwoofers. For premium onboard entertainment, match the lights to the beat with the audio sync feature. The controller is available with one or three outputs and provides boaters with the option of setting up separate lighting groups on their vessels. Optimize your time on the water with a seamless integrated lighting control system.

IN YOUR CONTROL

Control lights over the NMEA 2000® network with your compatible chartplotter or with the ActiveCaptain® app on your compatible smartphone.

BE THE LIGHT DJ

From bow to stern and everything in between, this module lets you control and set up different light groups and scenes.

MATCH THE BEAT

See the beat by syncing the LED lights to the music track with the audio sync feature.

SPECIAL SPECTRA FEATURES

- Compact integrated LED light controller can be installed in tight spaces
- Two variants available: LC102 with one output and LC302 with three outputs
- Control and set up different light groups and scenes
- Scalable system allows captains to add more lights after the initial setup
- Control lights over the NMEA network with your compatible chartplotter or with the ActiveCaptain® app on your compatible smartphone
- See the beat by syncing the LED lights to the music track with the audio sync feature
- Simple setup and installation
- Built to withstand the abuse of life on the water (in accordance with IP66/IP67 ratings)
- Supports lighting systems that draw less than 2 amps

CHARTPLOTTERS

GPSMAP® 9000 MFD SERIES

010-02673-00 | GPSMAP 9019

010-02674-00 | GPSMAP 9022

010-02675-00 | GPSMAP 9024

010-02676-00 | GPSMAP 9027

Designed for captains who demand the best, the large-format GPSMAP 9000 series is the industry's first integrated 4K-resolution, in-plane switching (IPS) touchscreen chartplotter. Featuring edge-to-edge clarity, premium materials, wide viewing angles and processing power that is 7 times faster than previous generation glass helms, these multifunction displays are offered in sizes ranging from 19" to a big-as-they-come 27" format. High-speed network processing gives you a wide range of connectivity options, making it easy to link your compatible MFDs, cameras, sonars and more on the Garmin BlueNet™ network. Enjoy high-quality entertainment with multimedia streaming and seamless video integration. Plus, you can also use spoken commands to control your helm with your compatible headset. For navigation, the GPSMAP 9000 displays are compatible with Garmin Navionics+™ charts with Auto Guidance+ technology¹ and premium Garmin Navionics Vision+™ charts.

4K RESOLUTION,
IPS TOUCHSCREEN DISPLAY

HIGH-PERFORMANCE PROCESSOR

GIGABYTE SPEEDS ON GARMIN
BLUENET™ NETWORK

VIDEO INTEGRATION CAPABILITIES

GARMIN NAVIONICS+ AND GARMIN NAVIONICS VISION+ CARTOGRAPHY

Highly detailed charts and maps featuring Navionics® data and Auto Guidance+ technology¹.

SONAR SUPPORT

Fish in stunning high definition. Hook up to any of our sonar modules, and view sonar targets on the 4K display (transducers & modules sold separately).

NMEA 2000® AND NMEA 0183 NETWORKS

Connect with autopilots, engine data, the Fusion® Audio system and other compatible marine sensors and ecosystems.

DIGITAL SWITCHING

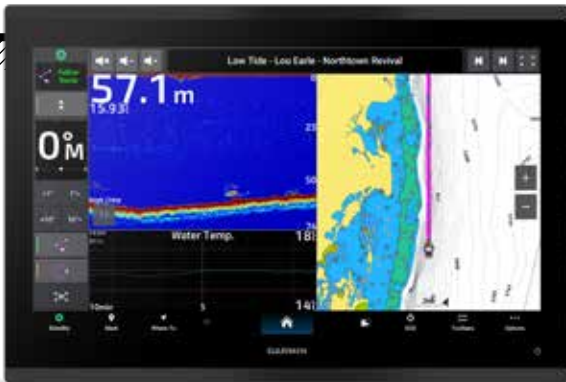

Nearly all your boat system controls are available right at your fingertips.

ADDITIONAL SERIES FEATURES

- Premium, large-format 4K IPS touchscreen displays offer wide viewing angles, superior clarity and sunlight readability even with polarized sunglasses
- Processing power is 7 times faster than previous generations for superior performance on your luxury screen
- Build extensive networks with reliable connectivity and gigabyte speeds on the proprietary Garmin BlueNet™ network
- Enjoy high-quality entertainment with video integration capabilities with HDCP distribution
- See fish like never before. Hook up to any of our scanning, traditional or Live Sonar modules to view targets on the 4K display (transducers and blackboxes sold separately)
- Navigate with optional Garmin Navionics+™ charts; get support for Garmin Navionics Vision+™ charts with premium features such as relief shading
- Get your precise location with multi-band GPS and heading accuracy even at slow speeds with the included GPS 24xd position receiver and antenna
- OneHelm™ and EmpirBus™ bring full control of all your onboard boat systems, such as lighting, propulsion, pumps, air conditioning and infotainment to your MFD screen
- Connect your compatible Garmin devices with integrated BLUETOOTH® and ANT® technologies; use spoken commands to control the chartplotter with your compatible headset
- Built-in Wi-Fi® pairs with free ActiveCaptain™ app for access to OneChart™ downloads, smart notifications², software updates, Garmin Quickdraw™ Community data and more

XSV MODELS INCLUDE BUILT-IN SUPPORT FOR THE FULL SUITE OF GARMIN SONAR OPTIONS

HIGH-DEFINITION SONAR

Fish in stunning high definition with built-in 1 kW xCHIRP and Garmin RapidReturn™ sonar. Excellent target separation helps you see crisp and clear fish targets all around (sonar support on xsv models only).

LIVESCOPE™

Supports all LiveScope sonar, including the LiveScope Plus and LiveScope XR system.

GARMIN NAVIONICS+ AND GARMIN NAVIONICS VISION+ CARTOGRAPHY

Highly detailed maps and cartography featuring Navionics data and Auto Guidance+ technology¹.

GMR FANTOM RADAR

Supports Fantom™ radar with MotionScope™ technology.

ADDITIONAL SERIES FEATURES

- Premium 4K IPS sunlight-readable touchscreen display available on the 13" and 17" models; 10" model features full HD display
- Built-in support for the full suite of Garmin sonar capabilities: xCHIRP and Garmin RapidReturn™, and see fish in stunning UHD, the LiveScope systems, and the full line of Panoptix sonars (transducers sold separately)
- Adds a stunning appearance with ability to install multiple displays either flat mounted edge-to-edge to create a sleek glass helm look or mounted flush
- Fully NMEA 2000® and Garmin Marine Network capable to easily build your marine system, from sonar, radar and autopilots to instruments, cameras and multimedia
- Bluetooth, ANT, Wi-Fi® connectivity
- Take command of monitoring, control and automation systems with support for the EmpirBus™ system and other third-party solutions via OneHelm™ integrated digital switching
- Processing power is up to 7 times faster than previous generations for superior performance, plus get faster wireless ActiveCaptain® app transfer speeds with 5GHz Wi-Fi® connectivity
- Enjoy premium sailing features, such as sailing polars, plus see laylines, race start line guidance and more with Garmin SailAssist™ features
- Use built-in Wi-Fi® to pair with the free ActiveCaptain™ app for access to OneChart™, smart notifications², Garmin Quickdraw™ Community data and more
- Connect your compatible Garmin devices and more with integrated BLUETOOTH® and ANT® technologies; use spoken commands to control the chartplotter with your compatible headset or Garmin smartwatch

GPSMAP® 15X3 ULTRAWIDE CHARTPLOTTER

010-03855-00 | GPSMAP 1523xsv UltraWide

Offering a sleek, space-optimizing aesthetic in a 15" edge-to-edge glass format, the GPSMAP 15x3xsv chartplotter clearly expands your viewing horizons. Plot your course with Garmin Navionics+™ mapping (sold separately) — or upgrade to premium Garmin Navionics Vision+™ charts. And view vivid sonar color palettes with built-in Ultra High-Definition SideVü™ and ClearVü™ scanning sonars plus support for optional 1 kW CHIRP traditional sonar (transducer required; sold separately).

ULTRAWIDE 15" FULL HD IPS
DISPLAY

TOUCHSCREEN WITH SPLIT-SCREEN
CONTROL

FULLY NETWORKABLE

INCLUDES BUILT-IN SUPPORT FOR THE
FULL SUITE OF GARMIN SONAR OPTIONS

ULTRA HIGH-DEFINITION SONAR

Offers built-in support for the Ultra High-Definition scanning sonar system; no black box needed.

LIVESCOPE™

Supports all LiveScope sonar systems.

GARMIN NAVIONICS+ CHARTS

Highly detailed charts and maps featuring Navionics® data and Auto Guidance+™¹ technology (sold separately.)".

NMEA 2000® AND NMEA 0183 NETWORKS

Connect with autopilots, the Fusion audio system and engine data.

ADDITIONAL SERIES FEATURES

- Minimal display borders and edge-to-edge glass create a stunning appearance and make it easy to fit a wide range of helm configurations, including "floating display" installations
- Built-in Ultra High-Definition SideVü and ClearVü scanning sonars with high-contrast vivid color palettes help distinguish fish from structure; supports optional Panoptix™ and LiveScope sonar devices as well as CHIRP traditional sonar (transducer required; sold separately)
- Split-screen control lets you size and organize your display configuration to put the data you need right where you want it
- Garmin Navionics+™ coastal charts and inland mapping (sold separately) feature Auto Guidance+™ technology; plus, there's support for optional Garmin Navionics Vision+™ premium map content (Auto Guidance+ is for planning purposes only and does not replace safe navigation operations)
- See engine information such as RPMs, fuel flow and more for compatible engine manufacturers
- Connect and control compatible devices through EmpirBus™ digital switching and other OneHelm™ integrated digital switching-compatible products
- Easily build your marine system — from compatible sonar, autopilot, radars or cameras — by using NMEA 2000 and NMEA 0183 network connectivity and the Garmin Marine Network
- Use built-in Wi-Fi technology to pair with the free ActiveCaptain® app for access to OneChart™, smart notifications, software updates and more (requires app on your compatible smartphone)
- Integrated ANT+ technology supports connecting to your compatible quatix® marine smartwatch, gWind™ Wireless 2 transducer, GNX™ Wind marine instrument and wireless remote controls
- Get support and integration for your Force® trolling motor (sold separately) to gain complete control while you fish
- OEMs can customize the home screen or create custom combo pages for a brand tailored experience
- Built-in J1939 connectivity

¹Auto Guidance+ is for planning purposes only and does not replace safe navigation operations

Features built-in support for LiveScope system sonar and the full line of live sonar products (optional transducers sold separately).

GARMIN NAVIONICS+ AND GARMIN NAVIONICS VISION+ CARTOGRAPHY

Highly detailed maps and cartography featuring Navionics® data.

FORCE™ TROLLING MOTOR COMPATIBLE

Get full control of the motor from the screen, plus the ability to route to waypoints, follow tracks and more.

ADDITIONAL SERIES FEATURES

- Quick-release bail mount for fast and easy mobility
- Built-in Wi-Fi® connectivity pairs with the free all-in-one mobile app on your compatible smartphone for access to the OneChart™ feature, smart notifications, software updates, Garmin Quickdraw™ Community data and more
- Your ECHOMAP UHD2 device supports a variety of Garmin transducers. The 6" and 7" chartplotters come bundled with a GT54 transducer — while the 9" chartplotter comes with a GT56 transducer
- High-contrast vivid scanning sonar color palettes make it easier than ever to distinguish targets and structure
- With crisp, clear traditional sonar and brilliant ClearVü and SideVü scanning sonars, the fish will have nowhere to hide. Your ECHOMAP UHD2 also supports LiveScope™ live-scanning sonar

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations

ECHOMAP™ UHD2 CV SERIES

010-02589-00 | ECHOMAP UHD2 52cv,WW w/o xdcr
010-02589-01 | ECHOMAP UHD2 52cv,WW, w/GT20 xdcr

010-02593-00 | ECHOMAP UHD2 72cv,WW w/o xdcr
010-02593-01 | ECHOMAP UHD2 72cv,WW w/GT20 xdcr

Fish like a local with these easy-to-use 5" and 7" keyed chartplotter/sonar combos. Get clear, high-contrast views below your boat with Garmin traditional and ClearVü scanning sonars¹. Know the waters you're in with support for Garmin Navionics+™ and Garmin Navionics Vision+™ cartography.

BRIGHT, SUNLIGHT-READABLE DISPLAY

BUILT-IN CHIRP TRADITIONAL AND CLEARVÜ SCANNING SONAR

COMPATIBLE WITH GARMIN NAVIONICS+ AND GARMIN NAVIONICS VISION+ CARTOGRAPHY, BOTH FEATURING NAVIONICS DATAN AND AUTO GUIDANCE+

SHARE SONAR, WAYPOINTS AND ROUTES WITH OTHER ECHOMAP DEVICES

SONAR SUPPORT

With crisp, clear traditional sonar and brilliant ClearVü sonar, the fish will have nowhere to hide.

VIVID COLOR PALETTES

High-contrast vivid scanning sonar color palettes make it easier than ever to distinguish targets and structure.

BUNDLE YOUR TRANSDUCER

Your ECHOMAP UHD2 device supports a variety of Garmin transducers for two types of sonar: Garmin traditional and ClearVü scanning sonar.

WIRELESS NETWORKING

If you have another compatible ECHOMAP UHD2 chartplotter on your boat, the models can wirelessly share information — such as sonar, waypoints and routes — with them.

ADDITIONAL SERIES FEATURES

- Use built-in Wi-Fi® networking to pair with the free ActiveCaptain® app for access to OneChart™, smart notifications, software updates and more²
- Support for Garmin Navionics+ and Garmin Navionics Vision+ marine cartography

¹Transducer required (sold separately)

ECHOMAP® PLUS 42CV

010-01884-00 | ECHOMAP Plus 42cv w/o xdcr
010-01884-01 | ECHOMAP Plus 42cv, w/xdcr

This compact combo has lots of built-in benefits. Easy-to-install and even easier to use, it has a bright 4.3" display that is easy to read on a sunny day on the water. It features built-in support for Garmin CHIRP traditional sonar that delivers remarkable target separation and CHIRP ClearVü™ scanning sonar for nearly photographic images of what's below the boat. Compatible with BlueChart g3 and BlueChart g3 Vision, both featuring Navionics® data and Auto Guidance technology¹.

SUNLIGHT-READABLE DISPLAY

BUILT-IN CHIRP TRADITIONAL AND
CLEARVÜ SCANNING SONAR

COMPATIBLE WITH BLUECHART G3
AND BLUECHART G3 VISION

BUILT-IN
QUICKDRAW CONTOURS

BUILT-IN SONAR

All feature incredibly real CHIRP traditional and scanning sonar.

QUICKDRAW CONTOURS MAPPING

Create and store maps as you fish with 1' contours for up to 2 million acres.

BLUECHART G3 CHARTS

Highly detailed coastal charts featuring Navionics data.

COMBO SCREEN

View both traditional CHIRP and CHIRP ClearVü at the same time.

ADDITIONAL SERIES FEATURES

- Bright, sunlight-readable 4.3" combo
- Built-in support for Garmin CHIRP traditional sonar plus CHIRP ClearVü™ scanning sonar (transducer sold separately)
- Preloaded worldwide basemap; compatible with BlueChart® g3 and premium BlueChart® g3 Vision coastal charts with integrated Navionics® data and Auto Guidance¹ technology
- Built-in Quickdraw Contours mapping software instantly creates personalized fishing maps on-screen with 1' contours as you fish
- Share waypoints and routes with other ECHOMAP™ or STRIKER™ units

TROLLING MOTORS

FORCE™ PRO TROLLING MOTOR SERIES

Move fast, move quiet, move your fishing to a higher level with the Force Pro trolling motor from Garmin. Delivering 100 lbs of thrust (in compliance with ISO standard 13342), it's incredibly powerful. Yet it's also highly efficient, so you can count on it to fish all day. Featuring a scissor-style mount and your choice of 50" or 57" shaft lengths, Force Pro is designed specifically for bass boats. See everything around your boat with brilliant high-definition scanning sonar with the included all-in-one GT56UHD transducer. And once you've found the spot, stay put with our most precise anchor lock technology, now featuring reverse prop spin and calm-water cable unwrap to reduce motor activity. Make speed and steering adjustments wirelessly from anywhere on the boat with the included foot pedal or included remote with gesture control. In fact, you can even connect wirelessly with your compatible Garmin smartwatch to control steering, anchor lock and more, right from your wrist. You can also use your integrated chartplotter to draw a route, and the trolling motor will automatically navigate while you fish. The lighted indicator on the Force Pro trolling motor shaft cap means you can fish in low light and always know what direction you're headed.

Built with advanced corrosion and saltwater protection for harsh marine environments, Force Pro is the fishing companion you can count on year after year. And when the day's fishing is done, it's easy to hoist and stow the motor, thanks to dual gas springs and a durable pull cable.

Force Pro Trolling Motor, 50" - Part no. 010-03011-00
Force Pro Trolling Motor, 57" - Part no. 010-03011-10

CHARTPLOTTER INTEGRATION

Simple integration with your Garmin chartplotter via a wireless connection makes using the built-in autopilot easy. Create routes to your favorite waypoint, and follow tracks while you fish.

The Force Pro Trolling Motor comes with an integrated transducer with CHIRP traditional and Ultra High-Definition ClearVü and SideVü scanning sonars with imperceptible sonar noise interference.

ADDITIONAL SERIES FEATURES

- Includes the power you need to counter winds and currents with the efficiency to fish all day
- Wireless chartplotter integration and built-in autopilot get you to fish, along with anchor lock to stay on them
- Wireless foot pedal provides instant control and responsiveness; feels and steers like a cable-steered pedal
- Includes integrated CHIRP traditional and Ultra High-Definition ClearVü and SideVü scanning sonars with imperceptible sonar noise interference
- Floating remote control gives you full control of the trolling motor and simple point-and-go gesture steering

WIRELESS FOOT PEDAL

Part no. : 010-12834-00

Enjoy the convenience of a wireless foot pedal. It provides instant control and responsiveness yet feels and steers just like a cable-steered pedal. It operates wirelessly using AA batteries, or – if you prefer – it can be hardwire installed.

REMOTE CONTROL

Part no. : 010-12833-00

The included handheld remote control with a sunlight-readable, transfective display offers total control of the trolling motor from anywhere on your boat along with unique point-and-go gesture steering capabilities. There are also user-programmable keys on the remote, which you can use for control of your chartplotter. No need to worry if the remote takes a trip overboard, because it's water-resistant, and it floats.

FORCE™ CURRENT TROLLING MOTOR

The legendary performance of Force trolling motors is now available for your kayak.

The brushless Force Current trolling motor was purpose-built for kayak anglers looking for a rugged propulsion system with superior maneuverability. Keep an eye on your integrated chartplotter and fish without setting the rod down – with wireless steering and throttle pedals included with select bundles – or use the handheld remote for gesture steering. Get on and off the water fast with simple and intuitive installation and removal. Turn quickly with full thrust available in any direction. Once you find the action, stay put with precise anchor lock technology. Use your chartplotter to create routes for the trolling motor to follow or navigate to a waypoint while you fish. The stern-mounted design uses the industry-standard, 4-hole mounting pattern for easy installation. Prioritize your safety on the water with the included wireless man overboard tag, which cuts off the motor if you fall overboard. Fish with force with a trolling motor that combines advanced features and practical solutions for the modern kayak angler.

Force Current with Power Steer Foot Pedals - Part no. 010-02864-00
Force Current - Part no. 010-02864-10

CHARTPLOTTER INTEGRATION

Simple integration with your Garmin chartplotter via a wireless connection makes using the built-in autopilot easy. Create routes to your favorite waypoint and follow tracks while you fish.

ADDITIONAL SERIES FEATURES

- Includes the power you need to counter winds and currents with the efficiency to fish all day
- Wireless chartplotter integration and built-in autopilot get you to fish, along with anchor lock to stay on them
- Reduce clutter on deck; the throttle and steering pedals connect wirelessly to the motor and are designed to accommodate a wide variety of installation methods
- Floating remote control gives you full control of the trolling motor and simple point-and-go gesture steering

OPTIONAL FOOT PEDALS

Part no. : 010-13307-00

Power steer pedals connect wirelessly to the motor to reduce clutter on the deck. This all-in-one steering and throttle solution allows you to fish, troll, cast and fight without ever setting the rod down. Programmable pedal buttons give you quick access to key features such as anchor lock, heading hold and more. Included with select bundles.

REMOTE CONTROL

Part no. : 010-12833-00

The included handheld remote control with a sunlight-readable, transfective display offers total control of the trolling motor along with unique point-and-go gesture steering capabilities. There are also user-programmable keys on the remote, which you can use for control of your chartplotter. No need to worry if the remote takes a trip overboard, because it's water-resistant, and it floats.

FORCE® KRAKEN TROLLING MOTOR

With its extended shaft lengths, pivot-style mount and top-rated 100 lbs of thrust (in compliance with ISO standard 13342), Force Kraken is a powerful new addition to the Garmin trolling motor lineup. Designed for deep V hulls and deck configurations where bow space is limited, the Force Kraken gives you the power you need for boat maneuverability in high winds or strong current — plus the run-time efficiency to stay out on the water longer. Get a clear view of what's below your boat with the available GT56 transducer¹. Then, once you've found the spot, stay put with our most precise anchor lock technology.

MORE FEATURES, MORE FLEXIBILITY

LiveScope™ live sonar (sold separately) is easy to add, thanks to the ability to run the cable through the trolling motor shaft. The sturdy pivot-style mount frees up space on the deck, and the 63", 75" and 90" shaft lengths accommodate boats with high freeboards. Draw a route with wireless chartplotter integration, and let the trolling motor automatically navigate the route while you fish. The included remote makes speed and heading adjustments easy from anywhere on the boat. Plus, it's saltwater-rated for advanced corrosion protection.

Force Kraken Trolling Motor 48", Black with GT56 xdrc - Part no 010-02573-30
Force Kraken Trolling Motor 48", White without xdrc - Part no 010-02574-30

Force Kraken Trolling Motor 110", White without xdrc - Part no. 010-02574-40
Force Kraken Trolling Motor 110", Black without xdrc - Part no. 010-02574-41

CHARTPLOTTER INTEGRATION

Wireless integration with your Garmin chartplotter allows you to create routes, patterns and tracks for the trolling motor to follow while you fish.

An integrated GT 56 transducer is available with black versions of the trolling motor, providing brilliant Ultra High-Definition sonar with virtually imperceptible electrical noise interference.

¹GT56 transducer comes with the black versions of the trolling motor only

ADDITIONAL SERIES FEATURES

- One of the most powerful trolling motors on the market, the Force Kraken's 100 lbs. of thrust are more than strong enough to counter winds and currents
- Anchor lock provides our most precise boat positioning, thanks to multi-band GPS and integrated AHRS for heading hold
- Sturdy composite shaft is built to endure harsh marine environments
- Efficient brushless motor design is optimized to operate in rough, open-water conditions at either 24 or 36 volts
- Included remote control device allows you to use point-and-go gesture steering to control the trolling motor — and it floats
- Brushless motor design produces minimal electronic interference for clear sonar returns

INCLUDED REMOTE CONTROL

Part no. : 010-12833-00

For hands-freeing convenience, the included remote control with sunlight-readable display lets you control the trolling motor from anywhere on your boat, using its unique point-and-go gesture steering capabilities. Programmable keys on the device can be used to control your chartplotter. And for extra peace of mind, the remote will float if it's ever dropped overboard.

RADAR

IN COUPE

WATER

GMR FANTOM™ RADARS

GMR FANTOM™ 254/256 SERIES

With up to 250 watts of power, GMR Phantom™ solid-state radars use MotionScope™ technology to detect and highlight moving targets in different colors, which helps you avoid potential collisions, find flocks of birds and track weather. Their Pulse Compression technology provides high-resolution imaging and maximizes energy to help you detect and identify targets. True Echo Trails gives you a fading trail on moving targets while accounting for the movement of your boat. Auto Bird Gain helps you identify flocks of birds on the water. GMR Phantom radars have a detection range up to 96 nautical miles.

SPECIAL FEATURES

MOTIONSCOPE TECHNOLOGY

Detect and highlight moving targets in different colors to help avoid collisions, find flocks of birds and track weather from 20' to 96 nautical miles.

AUTOMATIC MARPA ACQUISITION

Enables automatic triggering and tracking of up to 30 MARPA traffic targets with no user prompting required.

SCAN-TO-SCAN AVERAGING

This technology aids in the reduction of sea clutter and interference, so you have a clear view of what's out there.

AUTO BIRD GAIN

Where there are birds on the water's surface, there are often fish below it. Auto Bird Gain helps you locate flocks of birds at the water's surface.

PULSE COMPRESSION

This feature provides high-resolution imaging while maximizing energy to enhance target detection and identification.

ECHO TRAILS

The radar's True Echo Trails feature displays a historical "trail" on the screen to help you quickly identify moving targets.

GMR™ XHD3 OPEN-ARRAY RADARS

Designed for serious seafaring on yachts and sport fishing boats, these robust 4' and 6' open-array radars incorporate the latest Garmin magnetron technology to deliver high-definition imaging at all ranges for superior weather, obstacle and traffic detection. Antennas are built to withstand harsh conditions with a 100-knot commercial grade wind rating¹.

INSTRUMENTS

GNX™ 130 AND 120

GNX™ 130 Part no: 010-01396-00

GNX™ 120 Part no: 010-01395-00

Designed for serious sailors who demand quality, precision and total integration. This high-precision glass-bonded 10" or 7" large format instrument creates a beautiful "glass mast" display with superior readability in all conditions, day and night, with no fogging.

HIGH-PRECISION GLASS-BONDED BACKLIT LCD DISPLAY AVOIDS FOGGING

DIGITS ARE THE LARGEST DIGITS IN CLASS

DISPLAYS MORE THAN 50 SAILING AND BOAT PARAMETERS

ALLOWS SEAMLESS SHARING OF SAILING DATA BETWEEN GARMIN DEVICES

Boat speed and VMG

Heading

Depth

True wind angle and true wind speed

GNX KEYPAD

Part no: 010-12255-00

Control the GNX 120 or GNX 130 from a distance with this optional push-button keypad interface that can be mounted near the helm. Preset four buttons to dedicated configurations. Even adjust the background lighting of all displays with the touch of a button.

GNX 120 MAST BRACKETS

Part no: 010-12236-00 (2 units), 010-12236-01 (3 units), 010-12236-02 (4 units)

Flat mount the GNX 120 display for a beautiful glass mast look using our carbon fiber mast brackets. Choose from three mast bracket options – 2, 3, or 4 units.

INSTRUMENTS

GNX™ WIND

Part no: 010-01142-30

A superb addition for all sailboats, GNX Wind features a high-visibility, glass-bonded backlit LCD display with customizable colors. Shows two data fields and a digital wind rose simultaneously to display true and apparent wind data, steering guidance, boat speed and more. It also offers 15 important marine parameters for wind, speed, navigation and customizable profiles and other configurations.

GNX™ 21 & 20

GNX 20 Part no: 010-01142-00 / GNX 21 Part no: 010-01142-10

Perfectly designed marine instruments for both sailboats and power vessels, they're easy-to-read, clearly showing depth, speed, wind and 50 additional marine and vessel parameters. Preset auto-scroll function automatically cycles between screens.

GMI™ 20

Part no: 010-01140-00

The GMI 20 has a 4" color screen that displays depth, speed, wind, engine information and over 100 marine and vessel specific parameters based on your preference. Its glass-bonded finish lens resists fogging and increases contrast. Other features include a dedicated race timer that counts both down and up, with an internal beeper.

TD50

Part no: 010-02139-10

Extra touchscreens let you easily connect with your boat systems, sensors and media for supplementary control, switching and data monitoring from virtually any suitable mounting location on board. Wherever you need some extra system access on board, the 5" TD 50 touchscreen fits the need.

WIND TRANSDUCERS

Garmin gWind™ sensors feature a 3-bladed propeller and twin-fin design for more accurate True Wind Speed (TWS) in lighter air and more stable True Wind Angle (TWA).

The GND 10 black box interface (part no. 010-01227-00) seamlessly integrates Nexus instruments and sensors with the Garmin family. It converts data between the Nexus Network and NMEA 2000 to provide compatibility between Nexus and Garmin products, including gWind™, gWind™ Wireless and gWind™ Race transducers. Simple plug-and-play installation between Nexus and NMEA 2000, with USB connectivity, eliminates the need for user setup and system configuration.

GWIND™ TRANSDUCER

Part no: 010-01227-00

Features twin-fin technology with 3-bladed propeller for more accurate True Wind Speed in lighter air while the twin-fin design gives a more stable True Wind Angle. Includes a GND 10 black box.

GWIND WIRELESS 2 TRANSDUCER

Part no: 010-01616-00

An easy-to-install solution that eliminates running wires through masts up to 50 feet. Accurate wind signals are sent via an ANT® connection directly to a GNX™ Wind instrument or compatible Garmin GPSMAP® series chartplotters¹. Solar panel mounted on the transducer arm provides power to the internal solar-charged battery that lasts 3 years and is easily replaced.

GWIND RACE TRANSDUCER

Part no: 010-01228-00

Designed for racing sailboats, the gWind Race features a 3.3 feet (1 meter) straight pole that raises the transducer above the mast to remove turbulence errors. Includes a GND 10 black box.

INSTRUMENT PACKS

GNX WIRELESS WIND PACK

Part no.: 010-01616-10

GNX Wind and gWind Wireless 2.

GNX WIRELESS SAIL PACK 52

Part no.: 010-01616-40

GNX Wind, GNX 20, gWind Wireless 2 and DST810 (depth, speed & temperature).

GNX WIRELESS SAIL PACK 43

Part no.: 010-01616-30

GNX Wind, GNX 20, gWind Wireless 2, GST 43 (speed and temperature), GDT 43 (depth & temperature) and NMEA 2000 adapters.

GNX WIRED SAIL PACK 43

Part no.: 010-01248-60

GNX Wind, GNX 20, gWind, GST 43 (speed and temperature), GDT 43 (depth & temperature) and NMEA 2000 adapters.

GNX WIRED SAIL PACK 52

Part no.: 010-01248-70

GNX Wind, GNX 20, gWind, GND 10 and DST810 (depth, speed & temperature).

GMI WIRED START PACK 52

Part no.: 010-01248-80

GMI 20, gWind, GND 10 and DST810 (depth, speed and temperature).

SAILASSIST

To improve your sailing experience, GPSMAP® series chartplotters include special preloaded sailing features such as laylines, enhanced wind rose, heading and course-over-ground lines, true wind data fields and tide/current/time slider. For sail racing, there are prerace guidance, synchronized race timer, virtual starting line, time to burn and lay line data fields¹.

LAYLINES

View laylines and other critical data right on your chartplotter screen.

PRERACE GUIDANCE

Displays high-resolution depth range shading for up to 10 depth ranges, so you can view your designated target depth.

WIND GRAPHS

Clear graphs of true wind direction, apparent wind angle, true wind speed and apparent wind speed.

POLAR TABLE DATA

Support for polar table file handling enables your Garmin chartplotter to calculate the optimal wind angle for your sailboat to achieve its highest speed.

NORTH-UP / COURSE-UP COMBO

Set up a dual navigation chart combo showing north-up and course-up orientations. This simultaneous viewing enhances awareness for course direction and a broader positional location.

SAILING AUTO RESPONSE

Automatically adjusts the response setting, based on the sea and wind conditions. Response is lowered in calm conditions to prevent an overactive rudder — and it's raised in rough conditions to respond to wind and wave disturbances.

¹Requires compatible wind transducer (sold separately).

COMMUNICATIONS

VHF

CORTEX® V1 MARINE RADIO

Part no: 010-02814-20

A revolution in marine communication that will change your VHF experience forever. With an intuitive touchscreen handset engineered for durability, the Cortex V1 is a communications hub that integrates strong, clear audio with the power of AIS collision avoidance — plus remote systems monitoring and control from on board or ashore.

- With up to 85 dBA of crystal-clear audio power, the Cortex V1 system delivers superior sound quality.
- The included Cortex H1 handset offers easy one-hand operation with touchscreen, click-wheel and select keys.
- A built-in SOTDMA AIS transponder proactively warns you of certain collision threats with voiced alerts.
- Quickly initiate digital selective calling direct calls by tapping the AIS boat symbol on the handset's touchscreen.
- Cortex apps let you monitor boat systems, receive alerts and remotely control devices from your compatible smartphone.
- NMEA 2000® networking allows you to view Cortex data on your connected MFDs and chartplotters.

VHF, AIS AND MONITORING

Cortex V1 is an advanced multi-station VHF radio with remote monitoring and control. The Cortex V1 system includes a Cortex M1 hub and Cortex H1 tethered handset. Connect additional Cortex handsets (sold separately) for even more freedom and control on board.

ONE-TOUCH DSC

Cortex lets you initiate DSC direct calls with other vessels by simply tapping the vessel icon on your handset. Initiate VHF calls to friends from the saved favorites list, nearby vessel directory list or quickly hail another vessel from the collision avoidance situation screen when every second counts.

ANCHOR WATCH

Whether you're onboard or ashore, you can know for sure your boat is securely anchored. Cortex smartAIS accurately tracks boat movement, heading and bow position, alerting you if your anchor drags.

COLLISION AVOIDANCE

Cortex smartAIS continuously monitors AIS information from other boats and calculates crossing situations, generates collision alarms and provides easy-to-understand avoidance cues. Data from its built-in heading sensor is also broadcast, so other vessels can clearly identify which direction your boat is moving.

NEVER MISS A WORD

The Cortex system's cutting-edge SquelchEQ control is constantly adjusting for optimum listening performance, while its unique omni watch actively listens to all VHF frequency channels simultaneously and records each active channel for a playback period. With Cortex, you'll truly never miss a word.

VHF VOICE FLEXIBILITY

Connect up to 5 portable and power-tethered style Cortex handsets wirelessly via Wi-Fi® link to the Cortex M1 hub. Keep a portable handset with you for continual VHF communications access from anywhere on your boat.

VHF 115i MARINE RADIO

Part no: 010-02096-01

Essential fixed-mount VHF marine radio with 25-watt transmit power and built-in GPS. Standard Class D digital selective calling (DSC) and easy plug-and-play installation to compatible chartplotters and MFDs via the NMEA 2000® network.

VHF 215i MARINE RADIO

Part no: 010-02097-01

Fixed-mount VHF marine radio with relocatable fist microphone handset. Compatible with GHS 11i Wired VHF Handset. It has 25-watt transmit power with built-in GPS and standard Class D DSC, and easy plug-and-play installation to compatible chartplotters and MFDs via the NMEA 2000® network.

VHF 215i AIS MARINE RADIO

Part no: 010-02098-01

Fixed-mount VHF marine radio with built-in Class B CSTDMA AIS receiver. Easy plug-and-play installation to compatible chartplotters and MFDs to display AIS targets via the NMEA 2000® network. Flexible mounting with relocatable fist microphone handset and compatible with GHS 11i Wired VHF Handset.

VHF 315i MARINE RADIO

Part no: 010-02047-01

Modular black box VHF marine radio with built-in GPS receiver¹. Includes GHS 11i Wired VHF Handset and active speaker to use as an intercom between up to 3 stations. Connect a 30-watt capable hailer for two-way broadcast and listening. Easy plug-and-play installation to compatible chartplotters and MFDs the NMEA 2000® network.

GHS™ 11i WIRED VHF HANDSET

Part no: 010-01759-01

Full-function wired VHF Handset compatible with VHF 215i, VHF 215i AIS and VHF 315i. Clear 2" display, mounting flexibility using the 32' extension cable from the VHF marine radio and convenient 1' to nearly 5' coiled cable to the handset.

AIS

CORTEX® M1 SMART AIS

Part no: 010-02815-20

The Cortex M1 hub combines advanced collision avoidance technology with proactive alerting plus remote monitoring and control of onboard systems from your compatible smartphone.

- A high-speed Class B SOTDMA smartAIS transponder transmits your boat's location and heading and proactively warns of certain collision threats.
- Features Anchor Watch for anchor drag alerts and receives man overboard beacon transmissions.
- Cortex M1 is VHF-ready. Simply add a Cortex handset (sold separately) for full VHF radio capability.
- Cortex apps let you monitor boat systems, receive alerts and remotely control devices from your compatible smartphone.
- A GPIO port and supplied cable allow you to monitor bilge pumps, security sensors, shore power and more.
- NMEA 2000® networking allows you to view Cortex data on your connected MFDs and chartplotters.

ANCHOR WATCH

Using actual anchor position from the bow and the Cortex built-in heading sensor, smartAIS tracks boat movement and sounds an alarm if the anchor drags or if there is a change in wind speed, direction or water depth. While on your boat, get alerts on your compatible mobile device via the Cortex Onboard™ app — or via the Cortex Monitor™ app when you're ashore.

REMOTE MONITORING AND CONTROL

Check boat status, receive alerts and control devices with Cortex remote monitoring access using the Cortex Monitor app. Directly connect up to 5 external sensors to your system for added monitoring capability.

COLLISION AVOIDANCE

Cortex M1 is a full Class B SOTDMA transceiver combining GPS, AIS and heading data with smart logic to proactively warn you of certain collision risks with alarms or voice-annunciated alerts that escalate until acknowledged. AIS vessel information (name, bearing and relative position) is continuously provided using AIS information broadcast from other boats.

CORTEX ONBOARD APP

While you're on your boat, the Cortex Onboard app can serve as your primary interface with your Cortex M1 hub, allowing you to monitor boat status, receive alerts, view instrument data and display AIS screens on your compatible smart device.

MAN OVERBOARD

Cortex smartAIS continuously watches for man overboard (MOB) activations, sounding an alarm when it detects one. MOB can be manually activated via the Cortex Onboard app or automatically from an AIS MOB beacon — which launches a track-back mode for quicker retrieval.

NETWORK CONNECTIVITY

Cortex can receive and broadcast information over NMEA 0183 and NMEA 2000® networks, making it compatible with all modern chartplotters and multi-function displays.

AIS™ 800

Part no: 010-02087-00

Increase your situational awareness and confidence on the water with the AIS 800 transceiver. Featuring Class B SOTDMA with 5 watts of transmit power, AIS 800 broadcasts position reports faster with increased speed over regular Class B CSTDMA. Transmit your vessel information to other vessels' AIS receivers in your area so you can be seen. Receive AIS target data from other vessels and plot those on a NMEA 2000® networks chartplotter or multifunction display. An internal VHF antenna splitter allows the VHF and AIS to share a single antenna. A built-in GPS ensures your broadcasted position reports are accurate for other vessels.

- Easy-to-use, reliable communication transmits your vessel information to other AIS receivers in your area while receiving AIS target data
- 5 watts of transmit power with Class B SOTDMA provides faster positioning reporting with increased speed
- Built-in GPS with connector for optional external antenna
- NMEA 2000® connectivity for easy integration with compatible chartplotters and multifunction displays
- Internal VHF antenna splitter allows VHF and AIS to share a single antenna

CLASS B SOTDMA

Class B SOTDMA AIS is self-organizing and offers increased benefits over regular Class B CSTDMA. Increased transmission power guaranteed time slot allocation helps ensure your position report is received by other vessels. Transmission rate is also increased when your vessel is traveling at increased speed.

AIS ON YOUR CHART PLOTTER

Cortex® M1 and AIS 800 AIS transceivers feature NMEA 2000®/0183 connectivity for easy integration with compatible chartplotters and multifunction displays. See AIS target vessels in range on your chartplotter.

COLLISION WARNINGS

Potential risks are displayed, helping to minimize the risk of collision.

IDENTIFICATION

Sends detailed vessel data, allowing easy identification.

CLEAR OVERVIEW

Shows you the surroundings and the vessels around your boat.

SOCIAL SEAMANSHIP

Spot your friends quickly and enjoy direct ship-to-ship communication.

SONAR BLACK BOXES

SONAR BLACK BOXES

GSD 28

Part no: 010-02797-00

High-powered sonar black box engineered for superior sport fishing at extreme depths. Features next-generation xCHIRP sonar technology that provides our clearest fish arches for excellent target separation, smooth bottom returns and precise targeting down to 10,000'

GSD 25

Part no: 010-01159-00

The GSD 25 premium 1 kW CHIRP traditional sonar module is a remote network solution that provides outstanding fish-finding and bottom tracking capabilities with CHIRP ClearVü and CHIRP SideVü scanning sonar.

GSD 24

Part no: 010-00957-00

With up to 2,000 Watts of transmit power and a high-dynamic range receiver, the GSD 24 brings high-definition, dual-frequency imaging to your compatible Garmin chartplotter.

GCV™ 20

Part no: GCV 20: 010-00958-00, GCV 20 w/ xdcr GT34UHD: 010-02055-00

The Garmin GCV 20 Ultra High-Definition black box sonar adds both SideVü and ClearVü with CHIRP scanning sonar technology to your compatible Garmin chartplotter.

STREAMS LIVE SONAR

PAIR WITH STRIKER CAST APP,
FOR IOS AND ANDROID

UP TO 200' SONAR RANGE

10+ HOURS BATTERY LIFE¹

SCAN FISH BY PHONE

Wirelessly stream sonar to view fish and structure up to 200' in any direction via the STRIKER™ Cast app on your smartphone or tablet.

SELECTABLE MODES

Choose your views from easy-to-interpret traditional 2-D sonar and ice fishing flasher modes, with setting adjustments for gain, range and more.

QUICKDRAW CONTOURS

GPS model offers waypoint marking and Quickdraw Contours, letting you create and save your own fishing maps with 1' contours.

FISH ICONS

Turn on fish icons to view graphic images of fish targets and their depth readings, so you'll know exactly where to drop your line.

AUTOPILOTS

GHP™ REACTOR 40 AUTOPILOT SERIES

Reactor™ 40 hydraulic autopilot keeps you on course at cruising speeds, minimizes heading error, reduces power consumption and more, so you can be more comfortable while cruising. Solid-state 9-axis Attitude Heading Reference System (AHRS) sensors provide reliable vessel control in all sea and weather conditions and consistent heading accuracy within 2 degrees. Our Shadow Drive™ technology lets you easily take back control of the helm just by turning the wheel – automatically disengaging the autopilot. It's easy to control from your compatible Garmin chartplotter, and Reactor 40 can follow auto-guided routes¹ with compatible chartplotters and Garmin Navionics+™ and Garmin Navionics Vision+™ cartography. Flexible mounting options² and quick, easy commissioning make installation easier. For boats without a good, clean magnetic location to mount the CCU, Reactor 40 also supports heading inputs from third-party NMEA 2000® sensors such as GPS compass

ADDITIONAL SERIES FEATURES

- 9-axis Attitude Heading Reference System (AHRS) sensors provide reliable vessel control in all sea and weather conditions and consistent heading accuracy within 2 degrees
- Shadow Drive™ technology automatically disengages the autopilot when you turn the wheel
- Control the autopilot directly from the screen of your compatible chartplotter
- Access Auto Guidance+¹ with compatible chartplotters and Garmin Navionics+™ and Garmin Navionics Vision+™ cartography
- Supports third-party heading sensors or GPS compasses via the NMEA 2000® network

ACCESSORIES FOR REACTOR AUTOPILOTS

GHC™ 50 CONTROL UNIT
Part no: 010-02731-00

With its 5" WVGA edge-to-edge glass touchscreen interface and both wireless and wired control options, the GHC 50 autopilot instrument is styled to match the latest GPSMAP® premium chartplotters. It's powered by the NMEA 2000 network for seamless connectivity with Garmin MFDs and other units on your vessel.

REACTOR™ AUTOPILOT REMOTE
Part no: 010-12833-10

The ultimate in onboard freedom and convenience all in the palm of your hand. Bright color display and new gesture controls let you course-correct with ease.

GRF 10 RUDDER SENSOR
Part no: 010-11829-00

Pair this GRF 10 rudder feedback sensor with your autopilot to provide rudder position feedback to detect and avoid rudder stops.

GNA 10 JOG LEVER ADAPTER
Part no: 010-13007-00

Use the GNA 10 to connect a jog lever to Reactor 40 autopilots on displacement hull work boats or trawlers. Adjust heading hold with the jog lever or access Power Steering mode to move the rudder without autopilot guidance.

GHP™ REACTOR 40 STEER-BY-WIRE AUTOPILOT

These corepacks bring our GHP Reactor 40 autopilot technology to vessels with select steer-by-wire control systems, including Yanmar® Electric Power Steering for the JC10 Joystick system, Teleflex® Optimus™ systems, Yamaha® Helm Master™ systems, Volvo Penta® Inboard Performance Systems and ZF® 2800 Pod Drive steerings systems.

**GHP REACTOR 40 STEER-BY-WIRE STANDARD
COREPACK**
Part no: 010-02794-03

**GHP REACTOR 40 STEER-BY-WIRE YAMAHA® HELM
MASTER™ COREPACK**
Part no: 010-02794-04

**GHP REACTOR 40 STEER-BY-WIRE VOLVO PENTA®
COREPACK**
Part no: 010-02794-06

ADDITIONAL SERIES FEATURES

- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is unstable
- Standard corepack: supports steering systems from Yanmar® JC10 Joystick system, Teleflex® Optimus™ systems and ZF® 2800 system
- Corepack for Yamaha®: supports Yamaha Helm Master systems
- Corepack for Volvo Penta®: supports Volvo Penta IPS and stern drive joystick systems
- Minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts in any orientation
- NMEA 2000 interface
- Minimal commissioning and calibration takes just five minutes
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ 50 control units
- Add optional Autopilot Remote for control anywhere on your boat

GHP™ REACTOR 40 HYDRAULIC AUTOPILOTS

GHP Reactor 40 hydraulic corepack (pump sold separately) Part no: 010-02794-00
GHP Reactor 40 hydraulic with SmartPump corepack Part no: 010-02794-01

This robust unit gives powerboat users an easy-to-use autopilot system to rely on for navigation. The optional SmartPump features a more powerful, brushless motor-driven pump that is suitable for most users. It offers Intelligent Rudder Rate Technology (IRRT) which adjusts the rudder speed to the speed of your boat to ensure safer and more stable operation.

ADDITIONAL SERIES FEATURES

- Complete packages designed for hydraulically steered powerboats and sailboats
- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- Minimises heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts in any orientation
- Minimal commissioning and calibration takes just five minutes
- One SmartPump™ fits most hydraulically steered boating applications
- NMEA 2000 interface
- Small, brushless SmartPump™ delivers better thermal performance, higher reliability, and lower power consumption
- Optimal performance for all steering cylinder sizes from 4 to 17 cubic inches
- Intelligent Rudder Rate Technology (IRRT)
- Patented Shadow Drive™ technology keeps you in control even when autopilot is engaged
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ 50 control units

PUMPS

1.2-LITER PUMP KIT

Part no: 010-00705-64

2-LITER PUMP KIT

Part no: 010-00705-63

GHP™ REACTOR 40 MECHANICAL AUTOPILOT

GHP Reactor 40 Mechanical/Retrofit/Solenoid Corepack Part no: 010-02794-02

You never know when an extra crew member can come in handy. Maybe the wind picks up, and you have to leave the wheel to raise the sails or pull in fenders. Even in calm conditions, you sometimes need to hand over to someone else. That's where this below-deck autopilot system comes in, ideally suited for sailboats or powerboats with direct or cable-actuated steering systems.

ADDITIONAL SERIES FEATURES

- Ideal for sailboats with direct or cable-actuated steering systems
- Retrofit with your existing autopilot actuator or use with one of several Garmin linear actuator options (sold separately)
- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- Minimises heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts in any orientation
- Minimal commissioning and calibration takes just five minutes
- Engineered from corrosion-resistant components
- NMEA 2000 interface
- Enter your boat's displacement or its planning speed, and Reactor will take into consideration the various steering characteristics that are required
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ 50 control units
- The Reactor 40 autopilot can follow auto-guided routes with compatible chartplotters and Garmin Navionics+™ and Garmin Navionics Vision+™ cartography, as well as legacy BlueChart g3 and g3 Vision charts
- Add optional Autopilot remote for control anywhere on your boat

DRIVE UNITS

**CLASS A MECHANICAL
DRIVE UNIT FOR BOATS
UP TO 13 TONNES**

Part no: 010-11572-00

**CLASS B COMPACT
HYDRAULIC DRIVE UNIT
FOR BOATS UP TO 22 TONS**

Part no: 010-12029-01

**CLASS B HYDRAULIC DRIVE
UNIT FOR BOATS UP TO 36
TONNES**

Part no: 010-11573-00

GHP™ COMPACT REACTOR 40 HYDRAULIC AUTOPILOTS

Designed for boats less than 30 feet long to provide relief from manually holding the wheel to maintain course in heavy currents or winds¹. Solid-state 9-axis AHRS technology delivers less heading error, course deviation, rudder movement, power consumption and a more comfortable ride. Easy to install with flexible mounting options and quick, easy commissioning via a compatible chartplotter or GHC 50.

**GHP COMPACT REACTOR 40 HYDRAULIC COREPACK
WITH GHC™ 50 AND SHADOW DRIVE™**
Part no: 010-02794-08

**GHP COMPACT REACTOR 40 HYDRAULIC
COREPACK WITH GHC 50**
Part no: 010-02794-07

GHP COMPACT REACTOR 40 HYDRAULIC COREPACK
Part no: 010-00705-06

ADDITIONAL SERIES FEATURES

- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is unstable
- Designed for boats less than 30 feet long
- Available in 3 pack configurations:
GHP Compact Reactor Hydraulic Autopilot with GHC 50 and Shadow Drive™, GHP Compact Reactor Hydraulic Autopilot with GHC 50 and GHP Compact Reactor Hydraulic Autopilot
- Provides an extra set of hands, relief from manually holding the wheel to remain on course in heavy currents or winds
- Easy-to-install CCU provides flexible mounting options and quick, easy commissioning
- NMEA 2000 interface
- Minimal commissioning and calibration takes just five minutes
- 1 L geared pump supports hydraulic steering cylinders up to 10 cubic inches
- Provides advanced features to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Easy to add GHC 50 and Garmin patented Shadow Drive at any time if not initially included
- Add optional Autopilot remote for control anywhere on your boat

¹Not recommended for fishing or applications that require holding heading while trolling or at low speeds. For applications that require precise heading control while trolling or at low speeds, our higher-performance Reactor 40 models are recommended.

REACTOR 40 KICKER AUTOPILOT

Reactor™ 40 Kicker Autopilot with GHC™ 50 Display Part no: 010-02794-09
Reactor™ 40 Kicker Autopilot without GHC™ 50 Display Part no: 010-00705-95

The Reactor™ 40 kicker autopilot is specially designed for boats with small gasoline outboard motors up to 20 horsepower. Whether you're going for salmon, trout, walleye or some other species, your Reactor 40 kicker autopilot can help you maintain heading hold and route to keep you on course — even against wind, waves or heavy current. It includes a convenient floating handheld remote control with bright, sunlight-readable display. The Reactor 40 kicker autopilot makes it easy to fine-tune your autopilot throttle setting with the touch of a button and to quickly drop to idle speed when netting a fish. Enjoy easy integration with our included GHC™ 50 display, compatible Garmin chartplotters or NMEA 2000® network-compatible GPS system for a seamless onboard setup.

ADDITIONAL SERIES FEATURES

- Specially designed for boats with small gasoline outboard motors up to 20 horsepower
- Helps maintain heading hold and route to keep you on course — even against wind, waves or heavy current
- Includes convenient floating handheld remote control with a bright, sunlight-readable display
- Easily fine-tune autopilot throttle setting with the touch of a button to quickly drop to idle speed when netting a fish
- Easy to install and integrate with our included GHC™ 50 display, compatible Garmin chartplotters or NMEA 2000® network-compatible GPS system

CAMERAS

MARINE CAMERAS

Garmin marine cameras add security and heightened awareness to your vessel. They provide an extra set of eyes to monitor areas above or below decks – even in low light – making them perfect for engine rooms. The small size and rugged weatherproof cases allow you to install them nearly anywhere on your boat.

GC™ 200 MARINE IP CAMERA

Part no: 010-02164-00

MONITOR AREAS ABOVE AND BELOW DECK IN REAL TIME

HD RESOLUTION IMAGES EVEN IN LOW LIGHT

STREAM VIDEO FROM UP TO 4 CAMERAS AT A TIME ON A SINGLE COMPATIBLE CHARTPLOTTER

REVERSE-IMAGE SETTING HELPS WHEN BACKING OUT OF TIGHT LOCATIONS SUCH AS CROWDED MARINAS

SHARE VIDEO ACROSS MULTIPLE COMPATIBLE CHARTPLOTTERS

GC™ 100 WIRELESS MARINE CAMERA

Part no: 010-01865-31

Compact wireless camera streams high-quality video to your compatible chartplotter and any other chartplotter on the same network. Effective in total darkness, it's perfect for the engine room. Easy to install and hardwired for power, the camera is ready to use with one-button setup.

GC™ 14 MARINE CAMERA

Part no: 010-02667-00

Small and discreet, this camera delivers excellent quality images. Use it in multiple areas above or below decks, and view on one chartplotter or across multiple networked compatible chartplotters. It can help you back out of a crowded marina or keep an eye on your dark engine room.

GC™ 245 SURFACE-MOUNT CAMERA

010-02892-10, GC245 White
010-02892-11, GC245 Black

Enhance proximity awareness and confidence at the dock with the GC™ 245 surface-mount camera. Use the distance markers (professional calibration required) or guidance lines to help avoid obstacles in the marina. See video feeds in high definition from multiple views, including FishEye and standard views with low-light capabilities.

GC™ 255 FLUSH-MOUNT CAMERA

Part no: 010-02892-00

Enhance proximity awareness and confidence at the dock with the low-profile GC™ 255 flush-mount camera. Use the distance markers (professional calibration required) or guidance lines to help avoid obstacles in the marina. See video feeds in high-definition from multiple camera views, including FishEye and standard views with low-light capabilities.

ADDITIONAL FEATURES FOR GC™ 245 AND GC™ 255

- Surface-mount marine camera with 1080p resolution capability; available with a black or white finish
- Use the distance markers (professional calibration required) or guidance lines to help avoid obstacles in the marina
- Simple installation with dome up or down mounting options (GC™ 245)
- Easy setup and full integration on the Garmin Marine Network or Garmin BlueNet™ network (GC™ 245)
- Thru-hull mounting ensures stable installation (GC™ 255)
- Full integration is easy on the Garmin Marine Network or Garmin BlueNet™ network (GC™ 255)
- See up to four camera feeds simultaneously on your compatible chartplotter, or watch the video on multiple networked chartplotters
- Get the right perspective with FishEye and standard views with impressive low-light performance; also available with BirdsEye camera view (professional calibration required)
- Use digital zoom and pan to take a closer look at the video feed
- Built for life on the water with an IPX7 water rating

GUIDANCE LINES

Set up your own guidance lines for more confidence avoiding obstacles in the marina.

DISTANCE MARKERS

Use distance markers calibrated to your vessel by the boatbuilder so you know how far away you are from objects.

THREE CAMERA VIEWS

Get the right perspective with FishEye and standard views with impressive low-light performance; GC255 & GC 245 is also available with BirdsEye camera view.

MULTIPLE CAMERA FEEDS

See up to four camera feeds simultaneously on your compatible MFD; watch the video on networked chartplotters, or set it up on a custom combo page.

SURROUND VIEW SYSTEM

In tight maneuvering situations, the Garmin Surround View Camera System is a video guidance breakthrough. It's a fully integrated system of cameras that offers live bird's-eye view video monitoring for full 360-degree visibility around the boat from the helm. The video feed from the discreet, OEM factory-installed six-camera array seamlessly integrates with compatible Garmin chartplotters or MFD helm displays. The cameras also support situational awareness augmented reality features such as distance markers (similar to automotive backup camera viewing) and a visual bumper that helps the captain see when docks or other objects breach preset barrier limits around the boat. Through-hull installation at the factory offers secure fit and calibration for reliable, low-maintenance operation.

ARRAY ON BOARD

SLEEK IN-HULL
OEM INSTALLATION

SEAMLESS SITUATIONAL AWARENESS

The 360-degree video feed integrates with compatible Garmin chartplotters or MFD helm displays. Each camera view can also be monitored individually.

VISUAL BUMPER

A visual bumper feature helps the captain see when docks, piers or other objects breach preset barrier limits around the boat.

DISTANCE MARKERS

In tight maneuvering situations, distance markers around the boat provide visual cues to help maintain safe clearance and separation.

ENGINEERED FOR LOW MAINTENANCE

Thru-hull OEM installation offers secure fit and calibration of the Surround View Camera System. For easy maintenance, any of the cameras can be replaced externally.

WEARABLES AND HANDHELDS

QUATIX® 8 SERIES

The quatix® 8 high-performance marine smartwatch is built for captains and those who feel at home on the water. It features a bright AMOLED display with a scratch-resistant sapphire lens, durable titanium bezel and powerful LED flashlight. Use the built-in speaker and mic to control your compatible chartplotter via BLUETOOTH® technology or for on-wrist calling when paired to your smartphone. Seamlessly control Force® trolling motors, Fusion® stereos, autopilots and compatible Garmin chartplotters from your wrist while keeping an eye on data streamed from your onboard system. Go below the surface with a 40-meter dive rating, leakproof buttons, and support for scuba and apnea diving plus activity tracking for 100+ indoor and outdoor sports. Get more out of your time on the water with the preloaded boating and sailing apps.

24/7 HEALTH AND WELLNESS
FEATURES

MARINIZED DESIGN

This premium design is dive-rated and features leakproof buttons, a metal sensor guard and bright 1.4" AMOLED display with a scratch-resistant lens and durable titanium bezel.

COMPREHENSIVE HELM CONTROL

Enjoy remote control capabilities with select compatible Garmin chartplotters, autopilots, Force trolling motors, Fusion stereos and more.

DEDICATED MARINE FEATURES

Stay aware and get alarms for imminent tide changes or anchor drag. Take the podium with sail-specific features such as tack assist, race start guidance and regatta timer.

BUILT-IN LED FLASHLIGHT

A true integrated flashlight with variable light intensities and a red safety light can give you greater awareness at sea or at home, providing convenient illumination when you need it.

KNOWLEDGE IS POWER

A customizable morning report offers a summary of health and wellness information. Use the training readiness feature to help maximize your training and recovery.

GARMIN ONBOARD™ SYSTEM

Tag what matters most with this wireless (man overboard) MOB detection and engine cutoff system. Using wireless technology instead of the more traditional tethered cords, the Garmin OnBoard system (GOS) lets you move freely and boat confidently. It allows for up to 8 MOB tags to be tracked at one time, and tags can be assigned with either captain or passenger designations. The captain-designated tag allows for emergency engine shutoff should that key person fall overboard while the boat is moving. The wireless MOB tags can be worn comfortably on a wrist band, carabiner or key ring float – pairing easily with your compatible Garmin chartplotters for automatic MOB waypoint recording at the time of MOB detection. Plus, the system's GOS 10 hub includes a loud external alarm for alerting in a potential MOB emergency situation.

**WIRELESS MOB TAGS ENABLE
FREEDOM OF MOVEMENT**

**CAPTAIN MOB TAG DETECTION
TRIGGERS ENGINE CUTOFF**

**CHARTPLOTTER INTEGRATION
RECORDS MOB WAYPOINT**

**TRACKS UP TO 8 MOB
TAGS AT ONCE**

TAG WHAT MATTERS MOST

Wireless wearable MOB tags can be designated as either captain or passenger. Passenger MOB tag detection will trigger MOB messages on paired MFDs – plus an audible alarm. Captain MOB tag detection will also trigger engine cutoff.

PAIR WITH MULTIPLE TAGS

The Garmin OnBoard system can pair with up to 8 tags at a time – so you can make sure everyone is tagged and accounted for.

WIRELESS: NO STRINGS ATTACHED

Unlike a traditional tethered system, Garmin OnBoard is a fully wireless solution. The wearable MOB tags let you move freely and untethered while still being monitored.

WANT TO GO FOR A SWIM?

Garmin chartplotter integration allows you to temporarily disable the MOB tag function to allow for hassle-free fun on the water.

LONG BATTERY LIFE

MOB tags stay alert for trouble – with long battery life that typically exceeds a full boating season of operation.

HANDHELDS

GPSMAP® 73 AND GPSMAP® 79S

Boaters and watersport enthusiasts everywhere swear by GPS 73 and GPSMAP 79s handhelds. They float! The 79 series features bright 2.6" LCD color displays with built-in worldwide basemaps and a special MOB (man overboard) button. The GPS 73 includes SailAssist features, including virtual starting line, heading line, countdown timers and tack assist.

GPSMAP 73

GPSMAP 79S

GPSMAP® 276CX

All-terrain navigator with advanced GPS and GLONASS reception tracks your position in challenging environments. It has a large, sunlight-readable 5" screen plus built-in barometric altimeter and 3-axis compass. The GPSMAP 276CX also comes preloaded with a worldwide basemap and free 1-year BirdsEye Satellite Imagery subscription. Advanced mapping, connectivity and flexible mounting options are available; and it's water-rated to IPX7.

HANDHELDS

GPSMAP® 86 SERIES HANDHELDS

Cast off confidently with GPSMAP® 86 handheld series - Premium, floating handhelds with a sunlight-readable 3" colour display. GPSMAP 86i and 86s both support optional BlueChart g3 charts with integrated Navionics® data. Wireless connectivity makes these handhelds a virtual extension of your onboard marine system, displaying boat data from compatible chartplotters and instruments.

They also function as a remote control for convenient operation of your Garmin autopilot and FUSION® marine products. GPSMAP 86i allow you to stay in touch anywhere with inReach® satellite communication capabilities¹, two-way text messaging and interactive SOS. Share your position using GPS-based location tracking.

GPSMAP 86s

GPSMAP 86i

INREACH® MESSENGER

Providing global two-way messaging and interactive SOS, the inReach Messenger satellite communicator keeps you connected with friends and family even when you're out of cell coverage¹. Texting and group messaging is easy when using the Garmin Messenger™ app. Or send/receive messages by using compatible Garmin handhelds, wearables or other devices. Seamless switching between Wi-Fi® wireless networking, cellular and satellite networks gives you the best connectivity and cost-efficiency for all your communications.

INREACH® MESSENGER PLUS

Tell them you miss them. Show them the view. Share the experience. The inReach Messenger Plus SOS satellite communicator¹ lets you exchange text, photo and voice messages² when your adventure takes you beyond cellular range. Should the need arise, trigger an SOS message with GPS coordinates to Garmin Response, a 24/7-staffed international response coordination center for help in an emergency.

INREACH® MINI 2 MARINE BUNDLE

The inReach Mini2 Marine bundle puts the rugged, compact inReach Mini2 satellite communicator on your boat for interactive SOS, two-way messaging and basic navigation via the global Iridium network¹. The screw down mount, 12-volt power cable and wireless connectivity to compatible chartplotters let you add peace of mind to your adventures without taking up space on your helm. Off its mount, the internal, rechargeable lithium up to 14 days in default 10-minute tracking mode and up to 30 days with 30-minute tracking interval.

¹Satellite subscription required • NOTICE: Some jurisdictions regulate or prohibit the use of satellite communications devices. It is the responsibility of the user to know and follow all applicable laws in the jurisdictions where the device is intended to be used. Other Garmin maps not compatible with this device.

ACCESORIES

GRID 20 REMOTE INPUT DEVICE

Part no: 010-02011-00 (Portrait), 010-02011-01 (Landscape)

The easy-to-use remote input device provides access and control of your entire Garmin marine System. It features a 360-degree joystick with a rotary knob and push-to-select button for easy chartplotter menu/setting navigation and fine control even in the worst conditions. You can designate 4 favorite keys to restore your system to a previously saved configuration.

APK™ 10 AUTOPILOT KEYPAD

Part no: Horizontal 010-03197-00 Vertical 010-03197-01

Get precise control of your autopilot in all sea conditions with this easy-to-use tactile control panel accessory. It works with your Reactor™ 40 autopilot and GHC™ 50 autopilot instrument to allow simple, intuitive knob and button activation, heading changes and more.

MSC 10 MARINE SATELLITE COMPASS

Part no: MSC10, White, 010-02407-00

Part no: MSC10, Black, 010-02407-10

With multi-band GNSS and a fully integrated attitude and heading reference system, this satellite compass ensures a smooth and accurate GPS-derived heading and position on the water. It will also deliver precise pitch, roll and heave information — even in rough seas — to a compatible Garmin chartplotter (sold separately) via the NMEA 2000® network.

STEADYCAST™ HEADING SENSOR

Part no: 010-11417-10

SteadyCast heading sensor is a simple, easy-to-install solution that provides fast calibration and premium heading accuracy. It aligns your boat bow to its actual orientation so you know where you are casting according to your chartplotter screen. It's accurate even at low speed and effective in rough water.

GARMIN USB CARD READER

Part no: 010-02251-00

Save space on your helm with the compact, water-resistant SD™ card reader. It holds two full-size SD cards for quick access to charts, software updates and ActiveCaptain® data.

Featuring a 2"x 2" footprint, flush mounting and USB connection to the back of your chartplotter, this card reader easily integrates into a crowded dash or elsewhere at the helm.

GPS 24XD RECEIVER

Part no: GPS 24xHD White, 010-02316-10

Part no: GPS 24xHD Black, 010-02316-20

Explore coastal waters with the GPS 24xd position receiver and antenna. Get precise location to within 1 meter with dual-frequency band GPS and heading accuracy even at slow speeds with magnetic heading sensors. System-compatible antenna versions are available for both NMEA 2000® and NMEA 0183.

* The enclosure recommendations listed above are external dimensions which assume the use of 0.75 in (19 mm) thick material. If you are using 0.625 in (16 mm) thick material, subtract 0.25 in (6.5 mm) from each dimension. Do not use any material with a thickness of less than 0.625 in (16 mm) because this may compromise the rigidity of the enclosure.

* All enclosure volumes listed above are net internal volumes! Driver displacement, port displacement and brace displacement must be added to obtain the final gross internal volume. All enclosure dimensions above have already taken this into account.

* When using multiples in a common enclosure you will need to recalculate the enclosure and port dimensions. For assistance please contact your authorized JL Audio dealer or JL Audio technical support.

* We recommend the use of this in a bi-amplified system using high-quality satellites and a high-quality amplifier. We do not recommend the use of this with a passive crossover (coil), because this type of device will adversely affect performance.

* All specifications are subject to change without notice.

Autopilot Compatibility

Steering Type	Vessel Size/Type and Overall Use	Recommended Core Pack	Drive Unit Type	Components Included in Core Pack	Required Components not Included in Core Pack
Hydraulic	Cruising applications only; for single engine outboard (150hp and below) vessels less than 25' long. Up to 150 cc	Compact Reactor 40 Hydraulic Autopilot Starter Pack	1.0L Pump	Reactor 40 Compact ECU 1.0L Pump	<ul style="list-style-type: none"> 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Hydraulic	Cruising applications only; for single engine outboard (150hp and below) vessels less than 25' long. Up to 150 cc	Compact Reactor 40 Hydraulic Autopilot with GHC 50 Pack	1.0L Pump	Reactor 40 Compact ECU 1.0L Pump Shadow Drive	<ul style="list-style-type: none"> 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Hydraulic	Cruising applications only; for single engine outboard (150hp and below) vessels less than 25' long. Up to 150 cc	Compact Reactor 40 with Pump, GHC 50" and Shadow Drive Technology Pack	1.0L Pump	Reactor 40 Compact ECU 1.0L Pump Shadow Drive GHC 50	<ul style="list-style-type: none"> 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Hydraulic	Single-cylinder applications. Up to 200 cc	Reactor 40 Hydraulic Autopilot	GHP 1.2L Pump	Reactor 40 ECU 10 Shadow Drive GHC 50	<ul style="list-style-type: none"> 010-00705-64: GHP 1.2L Pump 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Hydraulic	Dual-cylinder applications. 200 - 300 cc	Reactor 40 Hydraulic Autopilot	GHP 2.0L Pump	Reactor 40 ECU 10 Shadow Drive With / Without GHC 50	<ul style="list-style-type: none"> 010-00705-63: GHP 2.0L Pump 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Hydraulic	Premium, recommended option for most hydraulic steering installations, including Verado®, power assist, and total cylinder volumes 100 - 370 cc. Recommended for high use, rougher waters, high performance, and slow speed applications. Also recommended for Evinrude G2 Dynamic Power Steering systems.	Reactor 40 Hydraulic Core Pack with SmartPump v2	SmartPump v2	Reactor 40 SmartPump v2 Shadow Drive With / Without GHC 50	<ul style="list-style-type: none"> 3 or 5 ORB Male to 1/4" NPT female adapters Hydraulic hose - machine-cripped or field replaceable fittings. Minimum 1000psi Hydraulic T-connectors - varies by vessel Hydraulic Shut-off valves - varies by vessel
Mechanical Steering	Total vessel displacements up to 28,500 pounds, with very low backdrive force required	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Class A Linear Actuator	Reactor 40 ECU 12 GHC 50	010-11572-00: Class A linear actuator; has rudder feedback included
Mechanical Steering	Total vessel displacements up to 48,400 pounds	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Class B Compact Linear Actuator	Reactor 40 ECU 12 GHC 50	010-12029-00: Class B linear actuator; has rudder feedback included
Mechanical Steering	Total vessel displacements from 48,000 to 79,000 pounds	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Class B Linear Actuator	Reactor 40 ECU 12 GHC 50	010-11573-00: Class B linear actuator; has rudder feedback included
Mechanical Steering	Sailboats with non-Garmin drive units	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Third-party Drive Unit	Reactor 40 ECU 12 GHC 50	Third-party drive unit 010-11533-00: Actuator Motor Cable, 010-11829-00: GRF 10 Rudder sensor, or 010-11532-00 + third party rudder sensor.
Steer by Wire	SeaStar Optimus, ZF Pod Drive, Yanmar, Evinrude G2 Intelligent Piloting System (including iDock)	Reactor 40 Steer-by-wire Standard Core Pack		Reactor 40 GHC 50	
Steer by Wire	Yamaha Helm Master	Reactor 40 Steer-by-wire Core Pack for Yamaha Helm Master	Gateway Included	Reactor 40 Autopilot Gateway GHC 50	
Steer by Wire	Volvo IPS or Sterndrive (C3 or newer Volvo EVC Systems) Aquamatic Sterndrive DPI	Reactor 40 Steer-by-wire Core Pack for Volvo-Penta	Gateway Included	Reactor 40 Autopilot Gateway GHC 50	
Steer by Wire	Viking VIPER	Reactor 40 Steer-by-wire Core Pack for Viking Viper		Reactor 40 GHC 20	
Solenoid	Constant running hydraulic pump systems with solenoid autopilot control	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Third-party Solenoid Required	Reactor 40 ECU 12 GHC 50	010-11533-10: Solenoid Cable 010-11829-00: GRF 10 rudder sensor or 010-11532-00 plus third-party rudder sensor
Cable Steer	Most cable steered vessels	Reactor 40 Mechanical/Solenoid/Retrofit Core Pack	Third-party 12VDC Brushed Motor Actuator Required	Reactor 40 ECU 12 GHC 50	010-11533-10: solenoid cable 010-11829-00: GRF 10 rudder sensor or 010-11532-00 plus third-party rudder sensor
Auxiliary Gas Engine (Kicker)	Up to 25HP auxiliary gas engines from most major manufacturers	Reactor 40 Kicker	Steering Actuator Included	CCU ECU Steering Actuator Throttle Actuator Wireless Remote	

The Wireless Remote with gesture control is an optional accessory compatible with all Garmin autopilots listed; requires GHC50 or supported chartplotters.

SUPPORT

TIME TO USE YOUR GARMIN MARINE ELECTRONICS

To make using and understanding your Garmin electronics as easy as possible, we offer several online resources where you can watch informative videos that show our newest products in action. You can find videos that clearly explain and demonstrate everything from installation and set-up to step-by-step "How To Use" guidance that will help you get the most enjoyment and best performance from your Garmin electronics.
