16 March 2020

With the outbreak of the Coronavirus and President Ramaphosa's latest declaring a State of Emergency in South Africa, we have decided to implement the following measures in doing our part to contain the possible spread of the virus.

With effect from 17 March 2020 and for the foreseeable future until further notice, we will conduct all Business Partner meetings via Skype, instead of face to face.

Our employees will continue with the daily operations and work will continue as normal within normal business hours.

Our Technical Walk-in Centre will be closed, and we will manage all support telephonically and through our Business Partner Network.

We thank you for your understanding and support and wish you good health.

Kind regards

Jennifer van Niekerk
